Summary: The threat to public health associated with vaping products is a nationwide one. The Greater Valley Glen Council favors the one-year prohibition on the sale of all vaping products that include cannabis and associated accessories as proposed in CF 19-1120. However, we oppose, as requested, a report from the Department of Cannabis Regulation on the health hazards associated with cannabis vaping and related products as this is being by others at the national level and is otherwise a needless additional burden on this department and the City's finances.
