Summary: Work on a redesign of Foothill Blvd. in Lake View Terrace to improve safety for motorists, pedestrians, cyclists and equestrians, including maximizing shoulder room, lighting improvements, and completion of a contiguous bridle path Council File #19-1471. In the wake of the recent accident on Foothill Blvd. that claimed the lives of two horses, and seriously injured two riders, the safety of equestrians on our streets is of utmost importance. Foothill Boulevard is a designated equestrian trail, yet we do not have contiguous bridle paths alongside the street, and due to parked cars, and other obstructions, equestrians often have no choice but to ride in the traffic lanes. This is a dangerous situation that needs to be addressed. We thank Councilwoman Rodriguez for addressing this matter through this motion, and we look forward to working with her office and LADOT to find the best solutions for the safety of equestrians, and the safety and best interests of all stakeholders.
