Comments for Public Posting: Protected bicycle lanes are critical for the safety of cyclists. I strongly encourage City Council to not pass this motion.

Comments for Public Posting: As an occasional visitor to LA, I am excited to see progress being made on making the city and its streets more welcoming to those who travel without an automobile. Our family recently spent several days in your beautiful city and were impressed by how easy it was to get around by public transit, and we saw wonderful protected bike lanes downtown and elsewhere - which made us want to return with our bicycles to further explore LA. Please ensure that safety (especially for the most vulnerable road users) and public transit reliability (and public transit speed) are the very most important criteria when evaluating bicycle and other road infrastructure. I hope that LA continues to improve and expand its network of protected bike lanes.
