Council File No: 20-0002-S20

Comments for Public Posting: Dear Council Members Please pass this bill to protect our native mountain lions. Their habitat is continually shrinking and their valiant efforts to survive, and to continue their species, is both heartwarming and tragic. Fish and Game should not be allowed to issue permits for landowners to shoot these beautiful animals for killing livestock. The President of the SM Mountain Conservancy has offered to pay landowners, out of his pocket, for any lost livestock in order to protect these threatened animals. Thank you!
