**Comments for Public Posting:** I went through homeless system City of Los Angeles. I filed four CES forms. Because I did not call under any of category of typical homeless people, I was told cannot help me. I am a previous working person. I went to college while on DPSS system. The housing I have been put in have been with drug addicts, prostitutes, alcoholics, and chronic GR welfare people. When in traditional homes or shelter and these people see others that are working or going to school, they are harassed, have personal items stolen, sometime verbal and physical abuse. There is a large need for housing to separate different clients. I have experience ALL of this. It is a struggle.
