Comments for Public Posting: Dear City Council and CD10 Council Member Herb Wesson, The proposed development by Jamison Properties at 738 South Normandie Ave. jeopardizes the historical significance of the entire street, because it is entirely out of character with the existing block, which has not had any new construction in nine decades. The block, which sits in the Normandie-Mariposa Historic Apartment District, was built at the same time as the Ambassador Hotel, a landmark which was demolished after a long preservation battle. Today, the 700 block of South Normandie Ave. is one of the City's most popular LAFILM locations due to its time capsule appearance. I am asking that CD10 Council Member Herb Wesson and the rest of City Council allow the CEQA appeal for 738 South Normandie, to help preserve the historic fabric of the block by ensuring that any new construction respects the existing historic structures and blends in, rather than standing out. Please do the right thing and help preserve Koreatown's Little New York Street. Sincerely Anora Lyn Schaer

Comments for Public Posting: Good Morning Council Member Herb Wesson and Deputy Elizabeth Carlin, I am writing again to you on behalf of Save Normandie Mariposa Historic Apartment District because we need your help, representation, and clarification. Based on Deputy Elizabeth Carlin's email response last Friday, April 24th stating that, "CD10 is considering our options, including adding a condition that CD10 Council office have final sign off on design approval", we need to know as your constituents how you will do this. We recommend that you delay the approval of this project today, April 29th at the City Council Meeting. We would like you to continue our CF# 20-0087 until a design can be approved by CD10 that is supportive of CEQA and in no way diminishes the historical significance of our street, Normandie. We believe you can delay it because if the developer, Jamison Properties even suspects that you won't approve their project - they will want a delay. I know and truly believe you have the influence with Jamison to make this happen. If you choose not to delay, will you legally attach an addendum or condition approval that states that the final project approval must be given by CD10? Please respond and let us know what you are planning to do to support your constituents and a lawful project, supportive of the Normandie Mariposa Historic Apartment District. Sincerely, Carolyn Zanelli
