**Council File No:** 20-0111

**Comments for Public Posting:** This pilot program has proven to be successful, and there is no question that it should now be extended long-term. Please vote yes on CF 20-0111 to help re-house the unhoused in the San Fernando Valley. The Valley has been underserved in regards to services for the homeless. It is time to step up and show support, especially when Councilman Blumenfield is taking initiative to come up with out-of-the-box solutions like this one.
