**Comments for Public Posting:** I urge you not to resume sweeps of homeless encampments. It's cruel and counterproductive and doing so is even more dangerous during a global pandemic - at a time with record numbers of deaths from covid-19 and people in ICU's, and at a time when even housed people do not know how they're going to keep the housing they have. Sweeps are against CDC advice and an expensive effort in a time when those funds could be spent on providing services and affordable housing to our community.

**Comments for Public Posting:** Please do not resume sweeps of homeless encampments. It's cruel, costly, and counterproductive to enforce sweeps in normal time and even more dangerous to do so during a pandemic. Not only is it against CDC advice, it is an expensive effort in a time when those millions can be spent to provide services and affordable housing to our community.

**Comments for Public Posting:** Please do not resume homeless encampment sweeps. It is not a good use of resources during the pandemic, is harmful and risky for both the unhoused population and those tasked with doing the sweep. Besides that, it's cruel and unnecessary- resources should be redirected into services for our unhoused community members

**Comments for Public Posting:** What happened to the project Room Key?? Why are these hotels standing empty when our most vulnerable population is on the streets? How on earth do you think sweeps is what this city and its voters are standing for AFTER ALL THAT WE HAVE BEEN THROUGH THESE MONTHS. Have you not been listening to the public sentiment? We want our taxpayer money used effectively and we want our money used humanly. The sinisterly called CARE program is NEITHER. Not only is it against CDC advice, it is an expensive effort in a time when those millions can be spent to provide services and affordable housing to our community.

**Comments for Public Posting:** Not only are sweeps cruel attacks on our unhoused neighbors, often taking away their shelter, work clothes, medications, food -- they are against the CDC's recommendations during this pandemic. Why not spend the millions used for sweeps to go towards services to actual help these folks?

**Comments for Public Posting:** I urge you to listen to the CDC and not resume sweeps that criminalize the unhoused people of Los Angeles. Work to find better ways to provide care and resources to them, instead of arresting or ousting them from their places of shelter.

**Comments for Public Posting:** I'm here to oppose homeless encampment sweeps, which hurt the homeless and spread disease. What happened to project KeyRoom? Hotels are standing empty when our most vulnerable population is on the streets. This is NOT how we should be spending \$8.4M. Have you not been listening to the public sentiment? We want our taxpayer money used effectively and we want our money used humanly. The so-called "CARE" program is NEITHER. Not only is it against CDC advice, it is an expensive effort in a time when those millions can be spent to provide services and affordable housing to our community.
