Comments for Public Posting: The city is complicit in my landlord evicting me for the second time-during a pandemic. She refuses to make repairs and exterminate for a rodent and moth infestation. Non of the city organizations do anything to assist. Every complaint I open they immediately shut. It's appalling. The RSO is truly a joke.

Comments for Public Posting: Please do not resume sweeps of homeless encampments. It's cruel, costly, and counterproductive to enforce sweeps in normal time and even more dangerous to do so during a pandemic. Not only is it against CDC advice, it is an expensive effort in a time when those millions can be spent to provide services and affordable housing to our community.

Comments for Public Posting: It is unfortunate that the city has decided to resume "sweeps" of the homeless encampments. As we heard from caller after caller this program is cruel, costly, and only creates trauma and additional pain to our most vulnerable population. When the pandemic hit, the CDC recommended against encampment sweeps saying they disperse people and spread illness. Why resume "sweeps" now when our infection rates are worse than ever and only growing?" Where exactly are they going to be swept to?
