**Comments for Public Posting:** Hollywoodland tract 6450 includes 220 acres of 575 residential homes and 440 acres of open space now part of Griffith park. Three sides , 80% of our perimeter are surrounded by park land. This park land has been an integral part of our community since it's inception in 1923. Care and protection of the open space through the Park Rangers is essential for the city, environment, the citizens, our homes and the land. This is precisely why we are advocating the city charter be changed so Rangers are permitted to carry firearms. The City Park Ranger's job is no longer solely interpretive, but is primarily a protective role. To do their job effectively and safety Rangers need to be armed. Please support this .
