Comments for Public Posting: It is of great concern that our (Peace Officers/Park Rangers) are equipped with the proper Life Saving Equipment to do the job that is required of them. In order to maintain the level of safety in our City Parks, our Park Rangers must have the necessary and essential tools to maintain that safety, for those visiting and expecting a safe experience enjoying our City Parks. There is a long list of Life threatening incidents in our Parks that carry the need for our Park Ranger/Peace Officers to be armed; assaults to do deadly harm, robbery. sexual assaults, auto theft, illegal drug use, on and on the Lapd records of such crimes are documented. Our Park Rangers continue to arrest these law breakers which also involve physical altercations thus causing liabilities to the city. We have visitors from all around the world that come to our parks daily. They should expect and be guaranteed a safe environment. Let's make it extremely safe so that the tradition of the Griffith family's vision still be maintained and not deteriorated. Sincerely,
Daniel Delgadillo Los Angeles City Resident (52 years) Retired
Lafd (38 years)

Comments for Public Posting: I'm amazed that Park Rangers that interpret and enforce the laws of County, City and state cannot and do not carry a firearm for protection of the public or for self protection. Especially, during these days where people do not act rationally or suffer from the affects of drugs or other mind altering substances. Many of these rangers are trained or can be trained in the use of firearms. Keeping the community safe is a number one priority.

Comments for Public Posting: Having been around members of the LA Park Rangers for years...my family firmly believes that it is ESSENTIAL for the Rangers to carry a firearm for the safety and security of the LA Parks system and its visitors.
