**Comments for Public Posting:** Masks are really important for everyone's safety. Require them for everyone who doesn't have a medical condition prescription signed by a medical provider.

**Comments for Public Posting:** We need a mask ordinance now. Masks are by far the best and cheapest tool we have to reduce virus transmission and right now people are refusing to wear them. Make it mandatory.

**Comments for Public Posting:** I agree with the recommendations of the Los Feliz Neighborhood Council - to make masks required, and to explore options to provide masks for those who don't have them. Wearing a mask is an easy way for us all to join in to help keep each other safe. If masks aren't required, reopening stores and businesses will just lead to spikes in cases and deaths. Thanks, Heather Paley Los Feliz

**Comments for Public Posting:** We need an ordinance requiring masks in public today. Far too many people are still not wearing a mask in public and are putting the rest of us at risk. It is the single most effective means to prevent the transmission of this virus and unfortunately my mask does not protect me, but you. It is like a seat belt that only saves the life of the other person in the car. In order to eradicate this disease in LA County, where we already have a disproportionate amount of deaths, and get our people back to work, we need to require a mask of everyone and enforce it. It is not fair to those of us sheltering in place and out of work that this has not been enacted yet.
