Comments for Public Posting: The money spent on this audit needs to come from LAPD and the audit done needs to be conducted independent of LAPD influence. History has shown that LAPD will twist the narrative and lie to improve its own image. LAPD protects itself, not the people. I said this in an earlier comment but I'll say it again: we did not ask you to pay LAPD to write its own report card. We asked you to DEFUND THE POLICE.

Comments for Public Posting: Although I endorse reforms advocated for improving LAPD re use of force, body cams and revelation of officers who have a bad record, I still do not want the size of LAPD reduced. Right now they are spread too thin and we need them in our communities throughout the City. I support their efforts! I do not approve of the loud and destructive voice of the small group who would unreasonably defund LAPD. Let them call for help when there are not enough officers to assist!
