WHEREAS, the LAPD requires a digital in-car video system (DICVS) to replace its current DICVS equipment, which is approximately 11 years old and began to reach its End-of-Life approximately six years ago;

WHEREAS, the video recording rates of LAPD officers has made on-premise storage unsustainable and the Department requires a solution to store the increasing amount of data in a secure Criminal Justice Information Systems (CJIS)-compliant government cloud location; and

WHEREAS, on June 24, 2016, the City and Contractor entered into Agreement Number C-127706, whereby Contractor provided to City, and City paid Contractor for certain services and equipment, including body worn cameras, conducted electrical weapons, and unlimited data storage through Evidence.com, a cloud-based data management storage platform; and

WHEREAS, the LAPD’s current DICVS and Axon body cameras cannot be synchronized and officers are tasked with operating two separate recording systems, which can potential distract officers at critical times when officer awareness is needed; and

WHEREAS, since 2015, the LAPD has become more reliant on the Contractor’s Evidence.com platform to improve workload management and efficiency by storing, sharing, reviewing, investigating, case filing and auditing evidence within the application; and

WHEREAS, the LAPD’s Information Technology Bureau (ITB) conducted preliminary testing of three DICV systems from three vendors, and of the in-car video systems tested by ITB, only Axon’s Fleet 3 was able to meet all the Department’s requirements; and
WHEREAS, the Contractor offers Fleet 3, an integrated DICVS solution that is part of the Contractor's larger ecosystem, which incorporates the Contractor's body worn video cameras and a cloud-based video storage solution, both of which are currently used by the Department under Agreement Number C-127706; and

WHEREAS, Fleet 3 immediately integrates with the LAPD's current body worn video system and evidence management application from the moment it is installed, incorporates all files (BWV, DICV, photos, audio files, documents) into one repository for efficient searching and sharing, offers numerous add-on products and features for enhanced productivity and policy compliance, causes no disruption in current workflows or procedures, and resolves the LAPD's on-premise storage issue with a cloud storage solution; and

WHEREAS, the services to be provided herein are of a professional, expert, temporary, or occasional nature and it is not reasonably practicable or compatible with the City's interest for LAPD to obtain additional competitive proposals; and

WHEREAS, the parties hereto wish to enter into an Agreement pursuant to which the Contractor will perform the work and furnish the deliverables as described herein for consideration and upon the terms and conditions as hereinafter provided.

When Contractor submits a request for City's prior written approval, it shall describe the proposed Authorized Person's role and the necessity for the proposed Authorized Person to access City Data. Contractor shall at all times cause such Authorized Persons to abide strictly by Contractor's obligations under this Agreement and the industry standards for information security. Contractor hereby agrees that only Authorized Persons who are bound in writing by confidentiality and other obligations sufficient to protect City Data in accordance with the terms and conditions of this Agreement will access City Data, and will do so only for the purpose of enabling Contractor to perform its obligations under this Agreement.

These controls must enable Contractor to promptly revoke or change access in response to terminations or changes in job functions, as applicable. Contractor shall encrypt all passwords, passphrases, and PINs, using solutions that are certified against U.S. Federal Information and Processing Standard 140-2, Level 2, or equivalent industry standard, and verify that the encryption keys and keying material are not stored with any associated data. Contractor will implement any City request to revoke or modify user access within twenty-four (24) hours or the next business day of receipt of City's request. Contractor will disable user accounts after at most ten (10) consecutive invalid authentication attempts.

### 9.8 Vulnerability Management and Patching

STANDARD PROVISIONS FOR CITY CONTRACTS

PSC-1. Construction of Provisions and Titles Herein

All titles, subtitles, or headings in this Contract have been inserted for convenience, and shall not be deemed to affect the meaning or construction of any of the terms or provisions of this Contract. The language of this Contract shall be construed according to its fair meaning and not strictly for or against CITY or CONTRACTOR. The word "CONTRACTOR" includes the party or parties identified in this Contract. The singular shall include the plural and if there is more than one CONTRACTOR, unless expressly stated otherwise, their obligations and liabilities shall be joint and several. Use of the feminine, masculine, or neuter genders shall be deemed to include the genders not used.

PSC-2. Applicable Law, Interpretation and Enforcement

Each party's performance shall comply with all applicable laws of the United States of America, the State of California, and CITY, including but not limited to, laws regarding health and safety, labor and employment, wage and hours and licensing. This Contract shall be enforced and interpreted under the laws of the State of California without regard to conflict of law principles. CONTRACTOR shall comply with new, amended, or revised laws, regulations, or procedures that apply to the performance of this Contract with no additional compensation paid to CONTRACTOR.

In any action arising out of this Contract, CONTRACTOR consents to personal jurisdiction, and agrees to bring all such actions, exclusively in state or federal courts located in Los Angeles County, California.

If any part, term or provision of this Contract is held void, illegal, unenforceable, or in conflict with any federal, state or local law or regulation, the validity of the remaining parts, terms or provisions of this Contract shall not be affected.

PSC-3. Time of Effectiveness

Unless otherwise provided, this Contract shall take effect when all of the following events have occurred:

A. This Contract has been signed on behalf of CONTRACTOR by the person or persons authorized to bind CONTRACTOR;

B. This Contract has been approved by the City Council or by the board, officer or employee authorized to give such approval;

C. The Office of the City Attorney has indicated in writing its approval of this Contract as to form; and

D. This Contract has been signed on behalf of CITY by the person designated by the City Council, or by the board, officer or employee authorized to enter into this Contract.
PSC-4. **Integrated Contract**

This Contract sets forth all of the rights and duties of the parties with respect to the subject matter of this Contract, and replaces any and all previous Contracts or understandings, whether written or oral, relating thereto. This Contract may be amended only as provided for in the provisions of PSC-5 hereof.

PSC-5. **Amendment**

All amendments to this Contract shall be in writing and signed and approved pursuant to the provisions of PSC-3.

PSC-6. **Excusable Delays**

Neither party shall be liable for its delay or failure to perform any obligation under and in accordance with this Contract, if the delay or failure arises out of fires, floods, earthquakes, epidemics, quarantine restrictions, other natural occurrences, strikes, lockouts (other than a lockout by the party or any of the party's Subcontractors), freight embargoes, terrorist acts, insurrections or other civil disturbances, or other similar events to those described above, but in each case the delay or failure to perform must be beyond the control and without any fault or negligence of the party delayed or failing to perform (these events are referred to in this provision as "Force Majeure Events").

Notwithstanding the foregoing, a delay or failure to perform by a Subcontractor of CONTRACTOR shall not constitute a Force Majeure Event, unless the delay or failure arises out of causes beyond the control of both CONTRACTOR and Subcontractor, and without any fault or negligence of either of them. In such case, CONTRACTOR shall not be liable for the delay or failure to perform, unless the goods or services to be furnished by the Subcontractor were obtainable from other sources in sufficient time to permit CONTRACTOR to perform timely. As used in this Contract, the term "Subcontractor" means a subcontractor at any tier.

In the event CONTRACTOR'S delay or failure to perform arises out of a Force Majeure Event, CONTRACTOR agrees to use commercially reasonable best efforts to obtain the goods or services from other sources, and to otherwise mitigate the damages and reduce the delay caused by the Force Majeure Event.

PSC-7. **Waiver**

A waiver of a default of any part, term or provision of this Contract shall not be construed as a waiver of any succeeding default or as a waiver of the part, term or provision itself. A party's performance after the other party's default shall not be construed as a waiver of that default.
PSC-8. Suspension

At CITY’S sole discretion, CITY may suspend any or all services provided under this Contract by providing CONTRACTOR with written notice of suspension. Upon receipt of the notice of suspension, CONTRACTOR shall immediately cease the services suspended and shall not incur any additional obligations, costs or expenses to CITY until CITY gives written notice to recommence the services.

PSC-9. Termination

A. Termination for Convenience

CITY may terminate this Contract for CITY’S convenience at any time by providing CONTRACTOR thirty days written notice. Upon receipt of the notice of termination, CONTRACTOR shall immediately take action not to incur any additional obligations, costs or expenses, except as may be necessary to terminate its activities. CITY shall pay CONTRACTOR its reasonable and allowable costs through the effective date of termination and those reasonable and necessary costs incurred by CONTRACTOR to effect the termination. Thereafter, CONTRACTOR shall have no further claims against CITY under this Contract. All finished and unfinished documents and materials procured for or produced under this Contract, including all intellectual property rights CITY is entitled to, shall become CITY property upon the date of the termination. CONTRACTOR agrees to execute any documents necessary for CITY to perfect, memorialize, or record CITY’S ownership of rights provided herein.

B. Termination for Breach of Contract

1. Except as provided in PSC-6, if CONTRACTOR fails to perform any of the provisions of this Contract or so fails to make progress as to endanger timely performance of this Contract, CITY may give CONTRACTOR written notice of the default. CITY’S default notice will indicate whether the default may be cured and the time period to cure the default to the sole satisfaction of CITY. Additionally, CITY’S default notice may offer CONTRACTOR an opportunity to provide CITY with a plan to cure the default, which shall be submitted to CITY within the time period allowed by CITY. At CITY’S sole discretion, CITY may accept or reject CONTRACTOR’S plan. If the default cannot be cured or if CONTRACTOR fails to cure within the period allowed by CITY, then CITY may terminate this Contract due to CONTRACTOR’S breach of this Contract.

2. 6. In the event CITY terminates this Contract as provided in this section, CITY may procure, upon such terms and in the manner as CITY may deem appropriate, services similar in scope and level of effort to those so terminated, and CONTRACTOR shall be liable to CITY for all of its costs and damages, including, but not limited to, any excess costs for such services.

7. If, after notice of termination of this Contract under the provisions of this section, it is determined for any reason that CONTRACTOR was not in default under the provisions of this section, or that the default was excusable under the terms of this Contract, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to PSC-9(A) Termination for Convenience.

8. The rights and remedies of CITY provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

PSC-14. Claims for Labor and Materials

**CONTRACTOR** agrees that a monetary remedy for breach of this Contract may be inadequate, impracticable, or difficult to prove and that a breach may cause **CITY** irreparable harm. **CITY** may therefore enforce this requirement by seeking injunctive relief and specific performance, without any necessity of showing actual damage or irreparable harm. Seeking injunctive relief or specific performance does not preclude **CITY** from seeking or obtaining any other relief to which **CITY** may be entitled.

For all Work Products delivered to **CITY** that are not originated or prepared by **CONTRACTOR** or its Subcontractors under this Contract, **CONTRACTOR** shall secure a grant, at no cost to **CITY**, for a non-exclusive perpetual license to use such Work Products for any **CITY** purposes.

INSURANCE CONTRACTUAL REQUIREMENTS

CONTACT  For additional information about compliance with City Insurance and Bond requirements, contact the Office of the City Administrative Officer, Risk Management at (213) 978-RISK (7475) or go online at www.lacity.org/cao/risk. The City approved Bond Assistance Program is available for those contractors who are unable to obtain the City-required performance bonds. A City approved insurance program may be available as a low cost alternative for contractors who are unable to obtain City-required insurance.

CONTRACTUAL REQUIREMENTS

CONTRACTOR AGREES THAT:

1. Additional Insured/Loss Payee. The CITY must be included as an Additional Insured in applicable liability policies to cover the CITY’S liability arising out of the acts or omissions of the named insured. The CITY is to be named as an Additional Named Insured and a Loss Payee As Its Interests May Appear in property insurance in which the CITY has an interest, e.g., as a lien holder.

2. Notice of Cancellation. All required insurance will be maintained in full force for the duration of its business with the CITY. By ordinance, all required insurance must provide at least thirty (30) days’ prior written notice (ten (10) days for non-payment of premium) directly to the CITY if your insurance company elects to cancel or materially reduce coverage or limits prior to the policy expiration date, for any reason except impairment of an aggregate limit due to prior claims.

3. Primary Coverage. CONTRACTOR will provide coverage that is primary with respect to any insurance or self-insurance of the CITY. The CITY’S program shall be excess of this insurance and non-contributing.

4. Modification of Coverage. The CITY reserves the right at any time during the term of this Contract to change the amounts and types of insurance required hereunder by giving CONTRACTOR ninety (90) days’ advance written notice of such change. If such change should result in substantial additional cost to CONTRACTOR, the CITY agrees to negotiate additional compensation proportional to the increased benefit to the CITY.

5. Failure to Procure Insurance. All required insurance must be submitted and approved by the Office of the City Administrative Officer, Risk Management prior to the inception of any operations by CONTRACTOR. CONTRACTOR’S failure to procure or maintain required insurance or a self-insurance program during the entire term of this Contract shall constitute a material breach of this Contract under which the CITY may immediately suspend or terminate this Contract or, at its discretion, procure or renew such insurance to protect the CITY’S interests and pay any and all premiums in connection therewith and recover all monies so paid from CONTRACTOR.

6. Workers’ Compensation. By signing this Contract, CONTRACTOR hereby certifies that it is aware of the provisions of Section 3700 et seq., of the California Labor Code which require every employer to be insured against liability for Workers’ Compensation or to undertake
self-insurance in accordance with the provisions of that Code, and that it will comply with such provisions at all time during the performance of the work pursuant to this Contract.

7. California Licensee. All insurance must be provided by an insurer admitted to do business in California or written through a California-licensed surplus lines broker or through an insurer otherwise acceptable to the CITY. Non-admitted coverage must contain a Service of Suit clause in which the underwriters agree to submit as necessary to the jurisdiction of a California court in the event of a coverage dispute. Service of process for this purpose must be allowed upon an agent in California designated by the insurer or upon the California Insurance Commissioner.

8. Aggregate Limits/Impairment. If any of the required insurance coverages contain annual aggregate limits, CONTRACTOR must give the CITY written notice of any pending claim or lawsuit which will materially diminish the aggregate within thirty (30) days of knowledge of same. You must take appropriate steps to restore the impaired aggregates or provide replacement insurance protection within thirty (30) days of knowledge of same. The CITY has the option to specify the minimum acceptable aggregate limit for each line of coverage required. No substantial reductions in scope of coverage which may affect the CITY’S protection are allowed without the CITY’S prior written consent.

9. Commencement of Work. For purposes of insurance coverage only, this Contract will be deemed to have been executed immediately upon any party hereto taking any steps that can be considered to be in furtherance of or towards performance of this Contract. The requirements in this Section supersede all other sections and provisions of this Contract, including, but not limited to, PSC-3, to the extent that any other section or provision conflicts with or impairs the provisions of this Section.

### Signal Activation Methods

The following devices will be configured for Signal activation: crash, and light bar. When triggered, the Axon Signal technology in the Fleet 3 Hub will activate the recording mechanism for all configured Axon cameras within Bluetooth range of the vehicle.

### Mobile Data Computer

Each vehicle will be equipped with a Mobile Data Computer provided by the customer, which meets or exceeds the specifications provided by Axon.

### Mobile Data Computer Requirements

- **Operating System:** Windows 7 SP1 or Windows 10 (version 1909 or higher) - x32 or x64 with the most current service packs and updates
- **Hard Drive:** Must have 25GB+ of free disk space
- **RAM/ Memory:** For x32: 4GB | For x64: 8GB or greater
- **Ethernet Port:** It is recommended that the MDC have one dedicated and available Ethernet port reserved for an Ethernet cable from router. The Ethernet port can be located on an electronic and stationary mobile docking station. If a docking station is used, it is the preferred location for the Ethernet port.
- **Wi-Fi Card:** If the MDC is not connected to the router via Ethernet LAN, a Wi-Fi card is required in the MDC. In this case, the Wi-Fi card should meet or exceed the router's minimum WiFi radio compatibility requirements.
### Additional Considerations

For agencies that use a VPN, Axon traffic must be passed through; such that it does not use the VPN tunnel. Customer must provide IT and / or Admin resources at time of installation to ensure data routing if functional for Axon Fleet operation.

In the event an Agency is unable to support the IT requirements associated with the installation, Axon reserves the right to charge the Agency for additional time associated with on-site work completed by an Axon Personnel.

### Hardware Provisioning

- The customer will provide the following router for all vehicles: **IBR1700-1200M-B**
- The customer will provide an MDC for each vehicle.
- If the customer chooses to provide their own SIM, they must be activated and available at time of installation

### SIM Location

- SIM will be installed in router and can be inserted in router by Cradlepoint if carrier is specified by agency.

### 4G / Cellular Offload Considerations

- The IBR00-1700M-B will be the connection which allows 4G upload of recorded video

### Network Considerations

- The customer will ensure that their cellular contract does not allow for data throttling, or service denial, once a set data threshold is met. Throttling or denial of service will negatively affect Fleet upload capabilities.

### Network Consideration Agreement

- Customer acknowledges the minimum requirements for the network to support this Statement of Work.
- Axon employees performing services under this SOW are CJIS certified.

- If the network provided by Customer does not meet the minimum requirements, or in the event of a requested change in scope of the project, a Change Order will be required and additional fees may apply. Additional fees would also apply if Axon is required to extend the installation time for reasons caused by the customer or the customer network accessibility.
# Professional Services & Training

<table>
<thead>
<tr>
<th>Project Management</th>
</tr>
</thead>
<tbody>
<tr>
<td>Axon will assign a Project Manager that will provide the expertise to execute a successful Fleet camera deployment and implementation. The Project Manager will have knowledge and experience with all phases of the project management lifecycle and with all application modules being implemented. He/she will work closely with the customer's project manager and project team members and will be responsible for completing the tasks required to meet all contract deliverables.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Vehicle Installation</th>
</tr>
</thead>
</table>
| Customer agrees to have the above mentioned number of intended vehicles available at the time of deployment.  
Axon will be performing the installation of all Axon Fleet vehicle hardware. Installation services included with Axon Fleet system include a "clip" and removal of existing in-car system hardware, if applicable. This does not include "full removal" of existing wiring. A "full removal" of all existing hardware and wiring is subject to additional fees. Axon provides basic Fleet operation overview to the customer lead and/or Admin at the time of install.  
  - It is necessary to differentiate between the type of equipment removal to be provided by Axon. Standard Fleet Installation includes hardware removal in a fashion considered "clip" which means Axon cuts the wires from the old system without removing multiple panels, removing all wiring and parts from the old system. In the case Axon removes the hardware Axon is not responsible for the surplus of hardware or any devices that may have been physically integrated with the removed system. In some situations, radar systems are integrated with the in-car video system and have a cable that connects to the system, if Axon removes the old in-car system then Axon is not responsible for the radar system as part of the removal.  
  - A "Rip" removal should be contracted through ProLogic directly. The Rip would be similar to a complete and full removal, which is more common when they retire a vehicle from service.  
Chosen installation site must have internet access for the Hub, through the router, and MDC for configuration and testing of Fleet 3. Customer must have a resource onsite during installation with Axon Evidence Device Administration permissions to assist with logging into customer MDCs and configuring vehicle software. |

<table>
<thead>
<tr>
<th>Custom Trigger Installation</th>
</tr>
</thead>
</table>
| The Fleet 3 Hub has multiple trigger configuration options. Any trigger configurations that include a door or magnetic door switch are considered "custom" and may be subject to additional fees.  
An Axon representative has discussed with the Agency the standard triggers of the Fleet System. Those no-cost triggers include Light-bar, Siren, Speed, Motion Activation and Gun-lock activation. The light-bar must have a controller to allow Axon to interface for the desired position, gun locks must be installed with existing hardware in the vehicle. Doors are considered "CUSTOM" since they required additional hardware and time for installation, typically requiring the door may need to be taken apart for the installation. |

## Introduction

The Axon Fleet 3 solution is a purpose-built in-vehicle recording system capable of capturing audio and video, supplemented by artificial intelligence designed for use in high risk environments encountered by law enforcement, corrections, military, emergency medical services (EMS), and security activities. The Axon Fleet 3 system records events for secure storage, retrieval, and analysis leveraging Axon's Evidence services. The recorded events are transferred securely to Axon Evidence using LTE, Wi-Fi or manual operations.

Axon Fleet 3

System Overview

Getting Started - Requirements

This section provides Axon Fleet 3 system information, requirements, and recommendations.

Axon Evidence

The Axon Fleet 3 system leverages the Axon Evidence platform to provide a cloud-connected in-car video solution. Axon has developed the Axon Fleet 3 system and Axon Evidence solution for use by essential public service organizations. Depending on the customer’s need, the solution can provide video capture, secure digital media storage and management, and paperless tracking and reporting. This unique system is suitable for both smaller agencies lacking in resources or large agencies trying to streamline and become more economical.

An administrator account is created for every agency on Axon Evidence during the initial implementation cycle of Axon Evidence. Typically, the person most responsible for your Axon Evidence agency owns the first administrator account. The first administrator usually defines security settings, creates custom roles and permissions, adds users, sets evidence retention policies, and configures other administrative features of your Axon Evidence agency account.

Your agency must have an Axon Evidence account for Axon Fleet 3 to operate. Appropriate device administration permissions must be enabled to allow vehicle configuration.

Licenses are required for Axon Evidence access. Each user must carry an active user license and appropriate administrative permission to log in to the Fleet Dashboard and operate the Axon Fleet 3 system.

Axon Signal Vehicle

Axon Signal is a technology that enables your Axon Body-Worn and Fleet Cameras to sense nearby events and start recording. The Fleet Hub and Axon Signal Vehicle, the in-vehicle products, detect certain trigger events, such as turning on a vehicle’s light bar, and take actions to activate nearby Axon cameras. With Axon Signal helping to record events, officers can focus on critical situations rather than on their cameras. Axon Evidence administrators can configure which Axon Signal, Fleet Hub, and Weapon triggers will activate Body-Worn and vehicle cameras.
Axon Fleet 3 cameras are activated by their Ethernet connected Fleet Hub, while Axon Body-Worn Cameras are activated by Axon Signal Vehicle. Agencies that do not want to activate Axon Body-Worn Cameras using Fleet trigger events do not need Axon Signal Vehicle.

**Example:** An administrator configures the lightbar to activate Body Worn cameras and the Fleet 3 front camera. When vehicle A turns on its light bar, the Fleet 3 front camera and any Axon Body-Worn Cameras in range will begin recording. The front cameras in other vehicles are not activated.
Additionally, TASER 7, TASER X2, and X26P Smart Weapons that are equipped with a Signal Performance Power Magazine (SPPM) can alert Axon Body-Worn and Fleet cameras. Axon Evidence administrators can configure if the SPPM alerts cameras when the CEW is armed, when the trigger is pulled, and/or when the arc is engaged.

**Mobile Data Computer (MDC)**

Axon Fleet 3 leverages the vehicle's mobile data computer (MDC) to interface with the Fleet Hub through software that enables a verified user of the system to initiate and end recordings, review and tag videos, and modify user preferences.

### System Requirements

- Operating System: Windows 7 or 10 required.
- Disk Space: 500 MB or more.
- Memory (RAM): 4 GB on 32 bit or 8 GB on 64 bit.
- Dedicated Ethernet port.

### System Recommendations

- Do not allow Operating System to disable network interfaces to save power.
MDC Alternatives

- Without an MDC, the Axon Fleet 3 system may be configured to automatically upload evidence through the agency's selected upload method at the end of each recording.
- Without an MDC, your agency will not be able to use ALPR capabilities.
- The Axon Fleet 3 system must be able to transfer data via WAN, otherwise firmware updates, product registration/synchronization, livestreaming, and evidence upload will not occur.

**Router/Network**

Axon Fleet 3 requires an Ethernet connection to an in-vehicle mobile router to facilitate communications between the Fleet 3 Hub and Axon Evidence leveraging LTE, Wi-Fi, or both. At this time, LTE carrier service is not provided by Axon. Customers using an APN may require special configurations, including network firewall exemptions, to enable communication between Fleet Hub and Axon Evidence.

**Configuration at Launch**

- **Eth** = Ethernet
- **LAN** = Local Area Network
- **WAN** = Wide Area Network.

**Vehicle**

The Axon Fleet 3 system is designed for use in emergency vehicles of various types, including: SUVs, sedans, trucks, and some electric vehicles but excludes marine applications and motorcycles. All components of the system must be enclosed within the vehicle.

- Constant Power Voltage: 11.6V – 14.8V | Nominal 12V
System Overview

- Key ON Voltage (Ignition Wire): 4V - 19.5V | Nominal 12V
- Key OFF Voltage: 30mA
- Chassis Ground: Impedance 0Ω - 0.25Ω

**Recommendation:** Use dedicated ground bus bars or connect directly to the chassis.

- Do not use a floating ground.
- Do not use a ground path that may be compromised by vehicle shock and vibration.

- Distance from System Ground to High Current Load: >12 in.

    Examples of High Current Load: UHF/VHF radios or any device consuming more than 1A.

- Do not use ground path shared with UHF/VHF radios.

THE FEDERAL BUREAU OF INVESTIGATION CRIMINAL JUSTICE INFORMATION SYSTEMS SECURITY ADDENDUM
Legal Authority for and Purpose and Genesis of the Security Addendum

Traditionally, law enforcement and other criminal justice agencies have been responsible for the confidentiality of their information. Accordingly, until mid-1999, the Code of Federal Regulations Title 28, Part 20, subpart C, and the National Crime Information Center (NCIC) policy paper approved December 6, 1982, required that the management and exchange of criminal justice information be performed by a criminal justice agency or, in certain circumstances, by a noncriminal justice agency under the management control of a criminal justice agency.

In light of the increasing desire of governmental agencies to contract with private entities to perform administration of criminal justice functions, the FBI sought and obtained approval from the United States Department of Justice (DOJ) to permit such privatization of traditional law enforcement functions under certain controlled circumstances. In the Federal Register of May 10, 1999, the FBI published a Notice of Proposed Rulemaking, announcing as follows:

1. Access to CHRI [Criminal History Record Information] and Related Information, Subject to Appropriate Controls, by a Private Contractor Pursuant to a Specific Agreement with an Authorized Governmental Agency To Perform an Administration of Criminal Justice Function (Privatization). Section 534 of title 28 of the United States Code authorizes the Attorney General to exchange identification, criminal identification, crime, and other records for the official use of authorized officials of the federal government, the states, cities, and penal and other institutions. This statute also provides, however, that such exchanges are subject to cancellation if dissemination is made outside the receiving departments or related agencies. Agencies authorized access to CHRI traditionally have been hesitant to disclose that information, even in furtherance of authorized criminal justice functions, to anyone other than actual agency employees lest such disclosure be viewed as unauthorized. In recent years, however, governmental agencies seeking greater efficiency and economy have become increasingly interested in obtaining support services for the administration of criminal justice from the private sector. With the concurrence of the FBI’s Criminal Justice Information Services (CJIS) Advisory Policy Board, the DOJ has concluded that disclosures to private persons and entities providing support services for criminal justice agencies may, when subject to appropriate controls, properly be viewed as permissible disclosures for purposes of compliance with 28 U.S.C. 534.

We are therefore proposing to revise 28 CFR 20.33(a)(7) to provide express authority for such arrangements. The proposed authority is similar to the authority that already exists in 28 CFR 20.21(b)(3) for state and local CHRI systems. Provision of CHRI under this authority would only be permitted pursuant to a specific agreement with an authorized governmental agency for the purpose of providing services for the administration of criminal justice. The agreement would be required to incorporate a security addendum approved by the Director of the FBI (acting for the Attorney General). The security...
addendum would specifically authorize access to CHRI, limit the use of the information to the specific purposes for which it is being provided, ensure the security and confidentiality of the information consistent with applicable laws and regulations, provide for sanctions, and contain such other provisions as the Director of the FBI (acting for the Attorney General) may require. The security addendum, buttressed by ongoing audit programs of both the FBI and the sponsoring governmental agency, will provide an appropriate balance between the benefits of privatization, protection of individual privacy interests, and preservation of the security of the FBI’s CHRI systems.

The FBI will develop a security addendum to be made available to interested governmental agencies. We anticipate that the security addendum will include physical and personnel security constraints historically required by NCIC security practices and other programmatic requirements, together with personal integrity and electronic security provisions comparable to those in NCIC User Agreements between the FBI and criminal justice agencies, and in existing Management Control Agreements between criminal justice agencies and noncriminal justice governmental entities. The security addendum will make clear that access to CHRI will be limited to those officers and employees of the private contractor or its subcontractor who require the information to properly perform services for the sponsoring governmental agency, and that the service provider may not access, modify, use, or disseminate such information for inconsistent or unauthorized purposes.

Consistent with such intent, Title 28 of the Code of Federal Regulations (C.F.R.) was amended to read:

§ 20.33 Dissemination of criminal history record information.

a) Criminal history record information contained in the Interstate Identification Index (III) System and the Fingerprint Identification Records System (FIRS) may be made available:

1) To criminal justice agencies for criminal justice purposes, which purposes include the screening of employees or applicants for employment hired by criminal justice agencies.

2) To noncriminal justice governmental agencies performing criminal justice dispatching functions or data processing/information services for criminal justice agencies; and

3) To private contractors pursuant to a specific agreement with an agency identified in paragraphs (a)(1) or (a)(6) of this section and for the purpose of providing services for the administration of criminal justice pursuant to that agreement. The agreement must incorporate a security addendum approved by the Attorney General of the United States, which shall specifically authorize access to criminal history record information, limit the use of the information to the purposes for which it is provided, ensure the security and confidentiality of the information consistent with these regulations, provide for sanctions, and contain such other provisions as the Attorney General may require. The power
and authority of the Attorney General hereunder shall be exercised by the FBI Director (or the Director’s designee).

This Security Addendum, appended to and incorporated by reference in a government-private sector contract entered into for such purpose, is intended to insure that the benefits of privatization are not attained with any accompanying degradation in the security of the national system of criminal records accessed by the contracting private party. This Security Addendum addresses both concerns for personal integrity and electronic security which have been addressed in previously executed user agreements and management control agreements.

A government agency may privatize functions traditionally performed by criminal justice agencies (or noncriminal justice agencies acting under a management control agreement), subject to the terms of this Security Addendum. If privatized, access by a private contractor’s personnel to NCIC data and other CJIS information is restricted to only that necessary to perform the privatized tasks consistent with the government agency’s function and the focus of the contract. If privatized the contractor may not access, modify, use or disseminate such data in any manner not expressly authorized by the government agency in consultation with the FBI.

FEDERAL BUREAU OF INVESTIGATION
CRIMINAL JUSTICE INFORMATION SERVICES
SECURITY ADDENDUM

The goal of this document is to augment the CJIS Security Policy to ensure adequate security is provided for criminal justice systems while (1) under the control or management of a private entity or (2) connectivity to FBI CJIS Systems has been provided to a private entity (contractor). Adequate security is defined in Office of Management and Budget Circular A-130 as "security commensurate with the risk and magnitude of harm resulting from the loss, misuse, or unauthorized access to or modification of information."

The intent of this Security Addendum is to require that the Contractor maintain a security program consistent with federal and state laws, regulations, and standards (including the CJIS Security Policy in effect when the contract is executed), as well as with policies and standards established by the Criminal Justice Information Services (CJIS) Advisory Policy Board (APB).

This Security Addendum identifies the duties and responsibilities with respect to the installation and maintenance of adequate internal controls within the contractual relationship so that the security and integrity of the FBI's information resources are not compromised. The security program shall include consideration of personnel security, site security, system security, and data security, and technical security.

The provisions of this Security Addendum apply to all personnel, systems, networks and support facilities supporting and/or acting on behalf of the government agency.

1.00 Definitions

1.01 Contracting Government Agency (CGA) - the government agency, whether a Criminal Justice Agency or a Noncriminal Justice Agency, which enters into an agreement with a private contractor subject to this Security Addendum.

1.02 Contractor - a private business, organization or individual which has entered into an agreement for the administration of criminal justice with a Criminal Justice Agency or a Noncriminal Justice Agency.

2.00 Responsibilities of the Contracting Government Agency.

2.01 The CGA will ensure that each Contractor employee receives a copy of the Security Addendum and the CJIS Security Policy and executes an acknowledgment of such receipt and the contents of the Security Addendum. The signed acknowledgments shall remain in the possession of the CGA and available for audit purposes. The acknowledgement may be signed by hand or via digital signature (see glossary for definition of digital signature).

3.00 Responsibilities of the Contractor.

3.01 The Contractor will maintain a security program consistent with federal and state laws, regulations, and standards (including the CJIS Security Policy in effect when the contract is executed and all subsequent versions), as well as with policies and standards established by the Criminal Justice Information Services (CJIS) Advisory Policy Board (APB).

4.00 Security Violations.

06/01/2020
CJISD-ITS-DOC-08140-5.9
4.01 The CGA must report security violations to the CJIS Systems Officer (CSO) and the Director, FBI, along with indications of actions taken by the CGA and Contractor.

4.02 Security violations can justify termination of the appended agreement.

4.03 Upon notification, the FBI reserves the right to:
   a. Investigate or decline to investigate any report of unauthorized use;
   b. Suspend or terminate access and services, including telecommunications links. The FBI will provide the CSO with timely written notice of the suspension. Access and services will be reinstated only after satisfactory assurances have been provided to the FBI by the CGA and Contractor. Upon termination, the Contractor's records containing CHRI must be deleted or returned to the CGA.

5.00 Audit

5.01 The FBI is authorized to perform a final audit of the Contractor's systems after termination of the Security Addendum.

6.00 Scope and Authority

6.01 This Security Addendum does not confer, grant, or authorize any rights, privileges, or obligations on any persons other than the Contractor, CGA, CJA (where applicable), CSA, and FBI.

6.02 The following documents are incorporated by reference and made part of this agreement: (1) the Security Addendum; (2) the NCIC 2000 Operating Manual; (3) the CJIS Security Policy; and (4) Title 28, Code of Federal Regulations, Part 20. The parties are also subject to applicable federal and state laws and regulations.

6.03 The terms set forth in this document do not constitute the sole understanding by and between the parties hereto; rather they augment the provisions of the CJIS Security Policy to provide a minimum basis for the security of the system and contained information and it is understood that there may be terms and conditions of the appended Agreement which impose more stringent requirements upon the Contractor.

6.04 This Security Addendum may only be modified by the FBI, and may not be modified by the parties to the appended Agreement without the consent of the FBI.

6.05 All notices and correspondence shall be forwarded by First Class mail to:

CERTIFICATION

I hereby certify that I am familiar with the contents of (1) the Security Addendum, including its legal authority and purpose; (2) the NCIC Operating Manual; (3) the CJIS Security Policy; and (4) Title 28, Code of Federal Regulations, Part 20, and agree to be bound by their provisions.

I recognize that criminal history record information and related data, by its very nature, is sensitive and has potential for great harm if misused. I acknowledge that access to criminal history record information and related data is therefore limited to the purpose(s) for which a government agency has entered into the contract incorporating this Security Addendum. I understand that misuse of the system by, among other things: accessing it without authorization; accessing it by exceeding authorization; accessing it for an improper purpose; using, disseminating or re-disseminating information received as a result of this contract for a purpose other than that envisioned by the contract, may subject me to administrative and criminal penalties. I understand that accessing the system for an appropriate purpose and then using, disseminating or re-disseminating the information received for another purpose other than execution of the contract also constitutes misuse. I further understand that the occurrence of misuse does not depend upon whether or not I receive additional compensation for such authorized activity. Such exposure for misuse includes, but is not limited to, suspension or loss of employment and prosecution for state and federal crimes.

Axon is not responsible for typographical errors in any offer by Axon, and Axon reserves the right to cancel any orders resulting from such errors.
   1.4. "Services" means all services provided by Axon under this Agreement, including software, Axon Cloud Services, and professional services.

2. Term. This Agreement begins on the Effective Date and continues until all subscriptions hereunder have expired or have been terminated ("Term").

For all other purchases, Axon may increase pricing on all line items in the Quote up to 3% at the beginning of each year of the Renewal Term. New devices and services may require additional terms. Axon will not authorize services until Axon receives a signed Quote or accepts a purchase order, whichever is first.

   The Renewal Term will include Fleet licensing, Unlimited Fleet Storage, and the TAP warranty for Fleet 3 at a price of $90.15 per month, per vehicle. This monthly amount is the average of an annual 10% increase that will be applied upon the commencement of the Renewal Term. If the US Bureau of Labor Statistics Consumer Price Index ("CPI") is higher than 10%, than the monthly rate above will be adjusted commensurate to CPI at the time the option is exercised. The City is responsible for providing the in-car routers for use with Fleet 3. During the Renewal Term, Contractor will provide installation services for Fleet 3 at a rate of $750 per vehicle.

3. Payment. Axon invoices upon shipment, or on the date specified within the invoicing plan in the Quote. Payment is due net 30 days from the invoice date. Payment obligations are non-cancelable. Unless otherwise prohibited by law, Agency will pay interest on all past-due sums at the lower of one-and-a-half percent (1.5%) per month or the highest rate allowed by law. Agency will pay invoices without setoff, deduction, or withholding. If Axon sends a past due account to collections, Agency is responsible for collection and attorneys' fees.

4. Taxes. Agency is responsible for sales and other taxes associated with the order unless Agency provides Axon a valid tax exemption certificate.

5. Shipping. Axon may make partial shipments and ship Axon Devices from multiple locations. All shipments are EXW (Incoterms 2020) via common carrier. Title and risk of loss pass to Agency upon Axon's delivery to the common carrier. Agency is responsible for any shipping charges in the Quote.

6. Returns. All sales are final. Axon does not allow refunds or exchanges, except warranty returns or as provided by
7. Warranty.

Axon warrants that Axon-manufactured Devices are free from defects in workmanship and materials for 1 year from the date of Agency's receipt, except Signal Sidearm and Axon-manufactured accessories, which Axon warrants for 30 months and 90 days, respectively, from the date of Agency's receipt. Used conducted energy weapon ("CEW") cartridges are deemed to have operated properly. Extended warranties run from the expiration of the 1-year hardware warranty through the extended warranty term. All software and Axon Cloud Services, are provided "AS IS," without any warranty of any kind, either express or implied, including without limitation the implied warranties of merchantability, fitness for a particular purpose and non-infringement. Axon Devices, software, and services that are not manufactured, published or performed by Axon ("Third-Party Products") are not covered by Axon's warranty and are only subject to the warranties of the third-party provider or manufacturer.

If Axon receives a valid warranty claim for an Axon-manufactured Device during the warranty term, Axon's sole responsibility is to repair or replace the Axon-manufactured Device with the same or like Axon-manufactured Device, at Axon's option. A replacement Axon-manufactured Device will be new or like new. Axon will warrant the replacement Axon-manufactured Device for the longer of (a) the remaining warranty of the original Axon Manufactured Device or (b) 90-days from the date of repair or replacement.

7.2.1. If Agency exchanges a device or part, the replacement item becomes Agency's property, and the replaced item becomes Axon's property. Before delivering an Axon-manufactured Device for service, Agency must upload Axon-manufactured Device data to Axon Evidence or download it and retain a copy. Axon is not responsible for any loss of software, data, or other information contained in storage media or any part of the Axon-manufactured Device sent to Axon for service.

7.3. Spare Axon Devices. At Axon's reasonable discretion, Axon may provide Agency a predetermined number of spare Axon Devices as detailed in the Quote ("Spare Axon Devices"). Spare Axon Devices are intended to replace broken or non-functioning units while Agency submits the broken or non-functioning units, through Axon's warranty return process. Axon will repair or replace the unit with a replacement Axon Device. Title and risk of loss for all Spare Axon Devices shall pass to Agency in accordance with shipping terms under Section 5. Axon assumes no liability or obligation in the event Agency does not utilize Spare Axon Devices for the intended purpose.

Axon's warranty will be void if Agency resells Axon Devices.

7.4.1. To the extent permitted by law, the above warranties and remedies are exclusive. Axon disclaims all other warranties, remedies, and conditions, whether oral, written, statutory, or implied. If statutory or implied warranties cannot be lawfully disclaimed, then such warranties are limited to the duration of the warranty described above and by the provisions in this Agreement.

7.4.2. Axon's cumulative liability to any Party for any loss or damage resulting from any claim, demand, or action arising out of or relating to any Axon Device or Service will not exceed the purchase price paid to Axon for the Axon Device, or if for Services, the amount paid for such Services over the 12 months preceding the claim. Neither Party will be liable for direct, special, indirect, incidental, punitive or consequential damages, however caused, whether for breach of warranty or contract, negligence, strict liability, tort or any other legal theory.

7.5. Online Support Platforms. Use of Axon's online support platforms (e.g., Axon Academy and MyAxon) is governed by the Axon Online Support Platforms Terms of Use Appendix available at www.axon.com/sales-terms-and-conditions.

7.7. Axon Aid. Upon mutual agreement between Axon and Agency, Axon may provide certain products and services to Agency, as a charitable donation under the Axon Aid program. In such event, Agency expressly waives and releases any and all claims, now known or hereafter known, against Axon, and its officers, directors, employees, agents, contractors, affiliates, successors, and assigns (collectively, "Releasess"), including but

16. **Termination**

16.1. **For Breach**. A Party may terminate this Agreement for cause if it provides 30 days written notice of the breach to the other Party, and the breach remains uncured at the end of 30 days. For bundled Axon Devices, MSRP is the standalone price of all individual components.

17. **Confidentiality**. “Confidential Information” means nonpublic information designated as confidential or, given the nature of the information or circumstances surrounding disclosure, should reasonably be understood to be confidential. Each Party will take reasonable measures to avoid disclosure, dissemination, or unauthorized use of the other Party’s Confidential Information. Axon Cloud Services Terms of Use Appendix

1. Definitions.

1.1. "Agency Content" is data uploaded into, ingested by, or created in Axon Cloud Services within Agency’s tenant, including media or multimedia uploaded into Axon Cloud Services by Agency. Agency Content includes Evidence but excludes Non-Content Data.

1.2. "Evidence" is media or multimedia uploaded into Axon Evidence as 'evidence' by an Agency. Evidence is a subset of Agency Content.

1.3. "Non-Content Data" is data, configuration, and usage information about Agency’s Axon Cloud Services tenant, Axon Devices and client software, and users that is transmitted or generated when using Axon Devices. Non-Content Data includes data about users captured during account management and customer support activities. Non-Content Data does not include Agency Content.

1.4. "Personal Data" means any information relating to an identified or identifiable natural person. An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

2. Access. Upon Axon granting Agency a subscription to Axon Cloud Services, Agency may access and use Axon Cloud Services to store and manage Agency Content. Agency may not exceed more end users than the Quote specifies. Axon Air requires an Axon Evidence subscription for each drone operator. For Axon Evidence Lite, Agency may access and use Axon Evidence only to store and manage TASER CEW and TASER CAM data ("TASER Data"). Agency may not upload non-TASER Data to Axon Evidence Lite.

3. Agency Owns Agency Content. Agency controls and owns all right, title, and interest in Agency Content. Except as outlined herein, Axon obtains no interest in Agency Content, and Agency Content is not Axon’s business records. Agency is solely responsible for uploading, sharing, managing, and deleting Agency Content. Axon will only have access to Agency Content for the limited purposes set forth herein. Agency agrees to allow Axon access to Agency Content to (a) perform troubleshooting, maintenance, or diagnostic screenings; and (b) enforce this Agreement or policies governing use of the Axon products.

4. Security. Axon will implement commercially reasonable and appropriate measures to secure Agency Content against accidental or unlawful loss, access or disclosure. Axon will maintain a comprehensive information security program to protect Axon Cloud Services and Agency Content including logical, physical access, vulnerability, risk, and configuration management; incident monitoring and response; encryption of uploaded digital evidence; security education; and data protection. Axon agrees to the Federal Bureau of Investigation Criminal Justice Information Services Security Addendum.

5. Agency Responsibilities. Agency is responsible for (a) ensuring Agency owns Agency Content; (b) ensuring no Agency Content or Agency end user’s use of Agency Content or Axon Cloud Services violates this Agreement or applicable laws; and (c) maintaining necessary computer equipment and Internet connections for use of Axon Cloud Services. If Agency becomes aware of any violation of this Agreement by an end user, Agency will immediately terminate that end user’s access to Axon Cloud Services.

5.1. Agency will also maintain the security of end usernames and passwords and security and access by end users to Agency Content. Agency is responsible for ensuring the configuration and utilization of Axon Cloud Services meet applicable Agency regulation and standards. Agency may not sell, transfer, or sublicense access to any other entity or person. Agency shall contact Axon immediately if an unauthorized party may be using Agency’s account or Agency Content, or if account information is lost or stolen.

5.2. To the extent Agency uses the Axon Cloud Services to interact with YouTube®, such use may be governed by the YouTube Terms of Service, available at https://www.youtube.com/static?template=terms.

6. Privacy. Agency’s use of Axon Cloud Services is subject to the Axon Cloud Services Privacy Policy, a current version of which is available at https://www.axon.com/legal/cloud-services-privacy-policy. Agency agrees to allow Axon access to Non-Content Data from Agency to (a) perform troubleshooting, maintenance, or diagnostic screenings; (b) provide, develop, improve, and support current and future Axon products and related services; and (c) enforce this Agreement or policies governing the use of Axon products.
7. **Axon Body 3 Wi-Fi Positioning.** Axon Body 3 cameras offer a feature to enhance location services where GPS/GNSS signals may not be available, for instance, within buildings or underground. Agency administrators can manage their choice to use this service within the administrative features of Axon Cloud Services. If Agency chooses to use this service, Axon must also enable the usage of the feature for Agency's Axon Cloud Services tenant. Agency will not see this option with Axon Cloud Services unless Axon has enabled Wi-Fi Positioning for Agency's Axon Cloud Services tenant. When Wi-Fi Positioning is enabled by both Axon and Agency, Non-Content and Personal Data will be sent to Skyhook Holdings, Inc. ("Skyhook") to facilitate the Wi-Fi Positioning functionality. Data controlled by Skyhook is outside the scope of the Axon Cloud Services Privacy Policy and is subject to the Skyhook Services Privacy Policy.

8. **Storage.** ForAxon Unlimited Device Storage subscriptions, Agency may store unlimited data in Agency's Axon Evidence account only if data originates from Axon Capture or the applicable Axon Device. Axon may charge Agency additional fees for exceeding purchased storage amounts. Axon may place Agency Content that Agency has not viewed or accessed for 6 months into archival storage. Agency Content in archival storage will not have immediate availability and may take up to 24 hours to access.

9. **Location of Storage.** Axon may transfer Agency Content to third-party subcontractors for storage. Axon will determine the locations of data centers for storage of Agency Content. For United States agencies, Axon will ensure all Agency Content stored in Axon Cloud Services remains within the United States. Ownership of Agency Content remains with Agency.

10. **Suspension.** Axon may temporarily suspend Agency's or any end user's right to access or use any portion or all of Axon Cloud Services immediately upon notice, if Agency or end user's use of or registration for Axon Cloud Services may (a) pose a security risk to Axon Cloud Services or any third-party; (b) adversely impact Axon Cloud Services, the systems, or content of any other customer; (c) subject Axon, Axon's affiliates, or any third-party to liability; or (d) be fraudulent. Agency remains responsible for all fees incurred through suspension. Axon will not delete Agency Content because of suspension, except as specified in this Agreement.

11. **Axon Cloud Services Warranty.** Axon disclaims any warranties or responsibility for data corruption or errors before Agency uploads data to Axon Cloud Services.

12. **Axon Records.** Axon Records is the software-as-a-service product that is generally available at the time Agency purchases an OSP 7 bundle. During Agency's Axon Records Subscription Term, if any, Agency will be entitled to receive Axon's Update and Upgrade releases on an if-and-when available basis.

12.1. The Axon Records Subscription Term will end upon the competition of the Axon Records Subscription as documented in the Quote, or if purchased as part of an OSP 7 bundle, upon competition of the OSP 7 Term ("Axon Records Subscription")

12.2. An "Update" is a generally available release of Axon Records that Axon makes available from time to time. An "Upgrade" includes (i) new versions of Axon Records that enhance features and functionality, as solely determined by Axon; and/or (ii) new versions of Axon Records that provide additional features or perform additional functions. Upgrades exclude new products that Axon introduces and markets as distinct products or applications.

12.3. New or additional Axon products and applications, as well as any Axon professional services needed to configure Axon Records, are not included. If Agency purchases Axon Records as part of a bundled offering, the Axon Record subscription begins on the later of the (1) start date of that bundled offering, or (2) date Axon provisions Axon Records to Agency.

12.4. Users of Axon Records at the agency may upload files to entities (incidents, reports, cases, etc) in Axon Records with no limit to the number of files and amount of storage. Notwithstanding the foregoing, Axon may limit usage should the Agency exceed an average rate of 100 GB per user per year of uploaded files. Axon will not bill for overages.

13. **Axon Cloud Services Restrictions.** Agency and Agency end users (including employees, contractors, agents, officers, volunteers, and directors), may not, or may not attempt to:

13.1. copy, modify, tamper with, repair, or create derivative works of any part of Axon Cloud Services;

13.2. reverse engineer, disassemble, or decompile Axon Cloud Services or apply any process to derive any source code included in Axon Cloud Services, or allow others to do the same;
13.3. access or use Axon Cloud Services with the intent to gain unauthorized access, avoid incurring fees or exceeding usage limits or quotas;

13.4. use trade secret information contained in Axon Cloud Services, except as expressly permitted in this Agreement;

13.5. access Axon Cloud Services to build a competitive device or service or copy any features, functions, or graphics of Axon Cloud Services;

13.6. remove, alter, or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon’s or Axon’s licensors on or within Axon Cloud Services; or

13.7. use Axon Cloud Services to store or transmit infringing, libelous, or other unlawful or tortious material; to store or transmit material in violation of third-party privacy rights; or to store or transmit malicious code.

14. **After Termination.** Axon will not delete Agency Content for 90 days following termination. There will be no functionality of Axon Cloud Services during these 90 days other than the ability to retrieve Agency Content. Agency will not incur additional fees if Agency downloads Agency Content from Axon Cloud Services during this time. Axon has no obligation to maintain or provide Agency Content after these 90-days and will thereafter, unless legally prohibited, delete all Agency Content. Upon request, Axon will provide written proof that Axon successfully deleted and fully removed all Agency Content from Axon Cloud Services.

15. **Post-Termination Assistance.** Axon will provide Agency with the same post-termination data retrieval assistance that Axon generally makes available to all customers. Requests for Axon to provide additional assistance in downloading or transferring Agency Content, including requests for Axon’s data egress service, will result in additional fees and Axon will not warrant or guarantee data integrity or readability in the external system.

16. **U.S. Government Rights.** If Agency is a U.S. Federal department or using Axon Cloud Services on behalf of a U.S. Federal department, Axon Cloud Services is provided as a “commercial item,” “commercial computer software,” “commercial computer software documentation,” and “technical data,” as defined in the Federal Acquisition Regulation and Defense Federal Acquisition Regulation Supplement. If Agency is using Axon Cloud Services on behalf of the U.S. Government and these terms fail to meet the U.S. Government’s needs or are inconsistent in any respect with federal law, Agency will immediately discontinue use of Axon Cloud Services.

17. **Survival.** Upon any termination of this Agreement, the following sections in this Appendix will survive: Agency Owns Agency Content, Privacy, Storage, Axon Cloud Services Warranty, and Axon Cloud Services Restrictions.
1. **Axon Customer Experience Improvement Program (ACEIP).** The ACEIP is designed to accelerate Axon's development of technology, such as building and supporting automated features, to ultimately increase safety within communities and drive efficiency in public safety. To this end, subject to the limitations on Axon as described below, Axon, where allowed by law, may make limited use of Agency Content from all of its customers, to provide, develop, improve, and support current and future Axon products (collectively, "ACEIP Purposes"). However, at all times, Axon will comply with its obligations pursuant to the Axon Cloud Services Terms of Use Appendix to maintain a comprehensive data security program (including compliance with the CJIS Security Policy for Criminal Justice Information), privacy program, and data governance policy, including high industry standards of de-identifying Personal Data, to enforce its security and privacy obligations for the ACEIP. ACEIP has 2 tiers of participation, Tier 1 and Tier 2. By default, Agency will be a participant in ACEIP Tier 1. If Agency does not want to participate in ACEIP Tier 1, Agency can revoke its consent at any time. If Agency wants to participate in Tier 2, as detailed below, Agency can check the ACEIP Tier 2 box below. If Agency does not want to participate in ACEIP Tier 2, Agency should leave box unchecked. At any time, Agency may revoke its consent to ACEIP Tier 1, Tier 2, or both Tiers.

2. **ACEIP Tier 1.**

2.1. When Axon uses Agency Content for the ACEIP Purposes, Axon will extract from Agency Content and may store separately copies of certain segments or elements of the Agency Content (collectively, "ACEIP Content"). When extracting ACEIP Content, Axon will use commercially reasonable efforts to aggregate, transform or de-identify Agency Content so that the extracted ACEIP Content is no longer reasonably capable of being associated with, or could reasonably be linked directly or indirectly to a particular individual ("Privacy Preserving Technique(s)"). For illustrative purposes, some examples are described in footnote 1. For clarity, ACEIP Content will still be linked indirectly, with an attribution, to the Agency from which it was extracted. This attribution will be stored separately from the data itself, but is necessary for and will be solely used to enable Axon to identify and delete all ACEIP Content upon Agency request. Once de-identified, ACEIP Content may then be further modified, analyzed, and used to create derivative works. At any time, Agency may revoke the consent granted herein to Axon to access and use Agency Content for ACEIP Purposes. Within 30 days of receiving the Agency's request, Axon will no longer access or use Agency Content for ACEIP Purposes and will delete any and all ACEIP Content. Axon will also delete any derivative works which may reasonably be capable of being associated with, or could reasonably be linked directly or indirectly to Agency. In addition, if Axon uses Agency Content for the ACEIP Purposes, upon request, Axon will make available to Agency a list of the specific type of Agency Content being used to generate ACEIP Content, the purpose of such use, and the retention, privacy preserving extraction technique, and relevant data protection practices applicable to the Agency Content or ACEIP Content ("Use Case"). From time to time, Axon may develop and deploy new Use Cases. At least 30 days prior to authorizing the deployment of any new Use Case, Axon will provide Agency notice (by updating the list of Use Case at [https://www.axon.com/aceip](https://www.axon.com/aceip) and providing Agency with a mechanism to obtain notice of that update or another commercially reasonable method to Agency designated contact) ("New Use Case").

2.2. **Expiration of ACEIP Tier 1.** Agency consent granted herein, will expire upon termination of the Agreement. In accordance with section 1.1.1, within 30 days of receiving the Agency's request, Axon will no longer access or use Agency Content for ACEIP Purposes and will delete ACEIP Content. Axon will also delete any derivative works which may reasonably be capable of being associated with, or could reasonably be linked directly or indirectly to Agency.

3. **ACEIP Tier 2.** In addition to ACEIP Tier 1, if Agency wants to help further improve Axon's services, Agency may

---

1 For example; (a) when extracting specific text to improve automated transcription capabilities, text that could be used to directly identify a particular individual would not be extracted, and extracted text would be disassociated from identifying metadata of any speakers, and the extracted text would be split into individual words and aggregated with other data sources (including publicly available data) to remove any reasonable ability to link any specific text directly or indirectly back to a particular individual; (b) when extracting license plate data to improve Automated License Plate Recognition (ALPR) capabilities, individual license plate characters would be extracted and disassociated from each other so a complete plate could not be reconstituted, and all association to other elements of the source video, such as the vehicle, location, time, and the surrounding environment would also be removed; (c) when extracting audio of potential acoustic events (such as glass breaking or gun shots), very short segments (<1 second) of audio that only contains the likely acoustic events would be extracted and all human utterances would be removed.
choose to participate in Tier 2 of the ACEIP. ACEIP Tier 2 grants Axon certain additional rights to use Agency Content, in addition to those set forth in Tier 1 above, without the guaranteed deployment of a Privacy Preserving Technique to enable product development, improvement, and support that cannot be accomplished with aggregated, transformed or de-identified data.

☐ Check this box if Agency wants to help further improve Axon’s services by participating in ACEIP Tier 2 in addition to Tier 1. Axon will not enroll Agency into ACEIP Tier 2 until Axon and Agency agree to terms in writing providing for such participation in ACEIP Tier 2.
Axon Fleet Appendix

If Axon Fleet is included on the Quote, this Appendix applies.

1. **Agency Responsibilities.** Agency must ensure its infrastructure and vehicles adhere to the minimum requirements to operate Axon Fleet 2 or Axon Fleet 3 (collectively, "Axon Fleet") as established by Axon during the qualifier call and on-site assessment at Agency and in any technical qualifying questions. If Agency's representations are inaccurate, the Quote is subject to change.

2. **Cradlepoint.** If Agency purchases Cradlepoint Enterprise Cloud Manager, Agency will comply with Cradlepoint's end user license agreement. The term of the Cradlepoint license may differ from the Axon Evidence Subscription. If Agency requires Cradlepoint support, Agency will contact Cradlepoint directly.

3. **Third-party Installer.** Axon will not be liable for the failure of Axon Fleet hardware to operate per specifications if such failure results from installation not performed by, or as directed by Axon.

4. **Wireless Offload Server.**
   4.1. **License Grant.** Axon grants Agency a non-exclusive, royalty-free, worldwide, perpetual license to use Wireless Offload Server ("WOS"). The WOS term begins upon the start of the Axon Evidence Subscription.
   4.2. **Restrictions.** Agency may not: (a) modify, alter, tamper with, repair, or create derivative works of WOS; (b) reverse engineer, disassemble, or decompile WOS, apply any process to derive the source code of WOS, or allow others to do so; (c) access or use WOS to avoid incurring fees or exceeding usage limits; (d) copy WOS in whole or part; (e) use trade secret information contained in WOS; (f) resell, rent, loan or sublicense WOS; (g) access WOS to build a competitive device or service or copy any features, functions or graphics of WOS; or (h) remove, alter or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon or Axon's licensors on or within WOS.
   4.3. **Updates.** If Agency purchases WOS maintenance, Axon will make updates and error corrections to WOS ("WOS Updates") available electronically via the Internet or media as determined by Axon. Agency is responsible for establishing and maintaining adequate Internet access to receive WOS Updates and maintaining computer equipment necessary for use of WOS. The Quote will detail the maintenance term.
   4.4. **WOS Support.** Upon request by Axon, Agency will provide Axon with access to Agency's store and forward servers solely for troubleshooting and maintenance.

5. **Axon Vehicle Software.**
   5.1. **License Grant.** Axon grants Agency a non-exclusive, royalty-free, worldwide, perpetual license to use ViewXL or Dashboard (collectively, "Axon Vehicle Software"). "Use" means storing, loading, installing, or executing Axon Vehicle Software solely for data communication with Axon Devices. The Axon Vehicle Software term begins upon the start of the Axon Evidence Subscription.
   5.2. **Restrictions.** Agency may not: (a) modify, alter, tamper with, repair, or create derivative works of Axon Vehicle Software; (b) reverse engineer, disassemble, or decompile Axon Vehicle Software, apply any process to derive the source code of Axon Vehicle Software, or allow others to do so; (c) access or use Axon Vehicle Software to avoid incurring fees or exceeding usage limits; (d) copy Axon Vehicle Software in whole or part; (e) use trade secret information contained in Axon Vehicle Software; (f) resell, rent, loan or sublicense Axon Vehicle Software; (g) access Axon Vehicle Software to build a competitive device or service or copy any features, functions or graphics of Axon Vehicle Software; or (h) remove, alter or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon or Axon's licensors on or within Axon Vehicle Software.

6. **Acceptance Checklist.** If Axon provides services to Agency pursuant to any statement of work in connection with Axon Fleet, within 7 days of the date on which Agency retrieves Agency's vehicle(s) from the Axon installer, said vehicle having been installed and configured with tested and fully and properly operational in-car hardware and software identified above, Agency will receive a Professional Services Acceptance Checklist to submit to Axon indicating acceptance or denial of said deliverables.
7. **Axon Fleet Upgrade.** If Agency has no outstanding payment obligations and has purchased the “Fleet Technology Assurance Plan” (Fleet TAP), Axon will provide Agency with the same or like model of Fleet hardware (“Axon Fleet Upgrade”) as schedule on the Quote.

7.1. If Agency would like to change models for the Axon Fleet Upgrade, Agency must pay the difference between the MSRP for the offered Axon Fleet Upgrade and the MSRP for the model desired. The MSRP is the MSRP in effect at the time of the upgrade. Agency is responsible for the removal of previously installed hardware and installation of the Axon Fleet Upgrade.

7.2. Within 30 days of receiving the Axon Fleet Upgrade, Agency must return the original Axon Devices to Axon or destroy the Axon Devices and provide a certificate of destruction to Axon, including serial numbers of the destroyed Axon Devices. If Agency does not destroy or return the Axon Devices to Axon, Axon will deactivate the serial numbers for the Axon Devices received by Agency.

8. **Axon Fleet Termination.** Axon may terminate Agency’s Fleet subscription for non-payment. Upon any termination:

8.1. Axon Fleet subscription coverage terminates, and no refunds will be given.

8.2. Axon will not and has no obligation to provide the Axon Fleet Upgrade.

8.3. Agency will be responsible for payment of any missed payments due to the termination before being allowed to purchase any future Fleet TAP.
