### SUMMARY

In a report to Council dated January 28, 2016, the City Engineer recommends approval of the establishment of names for private driveways located between Gavina and Harding Streets, as requested by the petitioner KB Homes. The City Engineer reports that the private driveways were created in conjunction with the development of Tract No. 35376. The naming of these private driveways is necessary for the assignment of street address numbers so that they are locatable by emergency vehicles, for delivery of mail by the United States Postal Service and other delivery services, and for visitors in the area. It will also ensure that they will be shown on Fire and Police Departments maps, various other maps available to the public, and that they will be placed in the 911 emergency system.

At its meeting held February 22, 2016, the Public Works and Gang Reduction Committee recommended that Council approve recommendations of the City Engineer relative to this matter.

Respectfully Submitted,
