SUMMARY

The City Engineer reports that the area sought to be vacated is:

Sunnyslope Avenue between Debby Street and Erwin Street

(a map of the area is included as Exhibit B in the February 12, 2004 City Engineer report and is attached to the Council file). The purpose of this vacation request is to consolidate the vacation areas with the adjoining properties to remedy the encroachment of landscaping and existing structures presently within the public-right-of-way. This vacation procedure is being processed

under procedures established by Council on March 5, 2002 as detailed in Council file No. 01-1459.

Furthermore, according to the City Engineer, the vacation of the public street areas as shown on the map designated as Exhibit B could be conditionally approved based upon the following: 1) it is unnecessary for present or prospective public use; 2) it is not needed for vehicular circulation or access; and 3) it is not needed for nonmotorized transportation purposes.

On July 30, 2008, the Public Works Committee considered the recommendations of the City Engineer as contained in its January 16, 2008 report. After having provided an opportunity for public comment, the Committee moved to recommend approval of the recommendations as contained in said City Engineer report and detailed above in Recommendation Nos. 1-5. This matter is now submitted to Council for its consideration.

Respectfully submitted,

PUBLIC WORKS COMMITTEE
