

I would like to amend some of the original boundary perimeters that were submitted with the application. The following is a confirmation of the amendment to the boundaries for the Neighborhood Name Change Application – Council File # 08-2758:

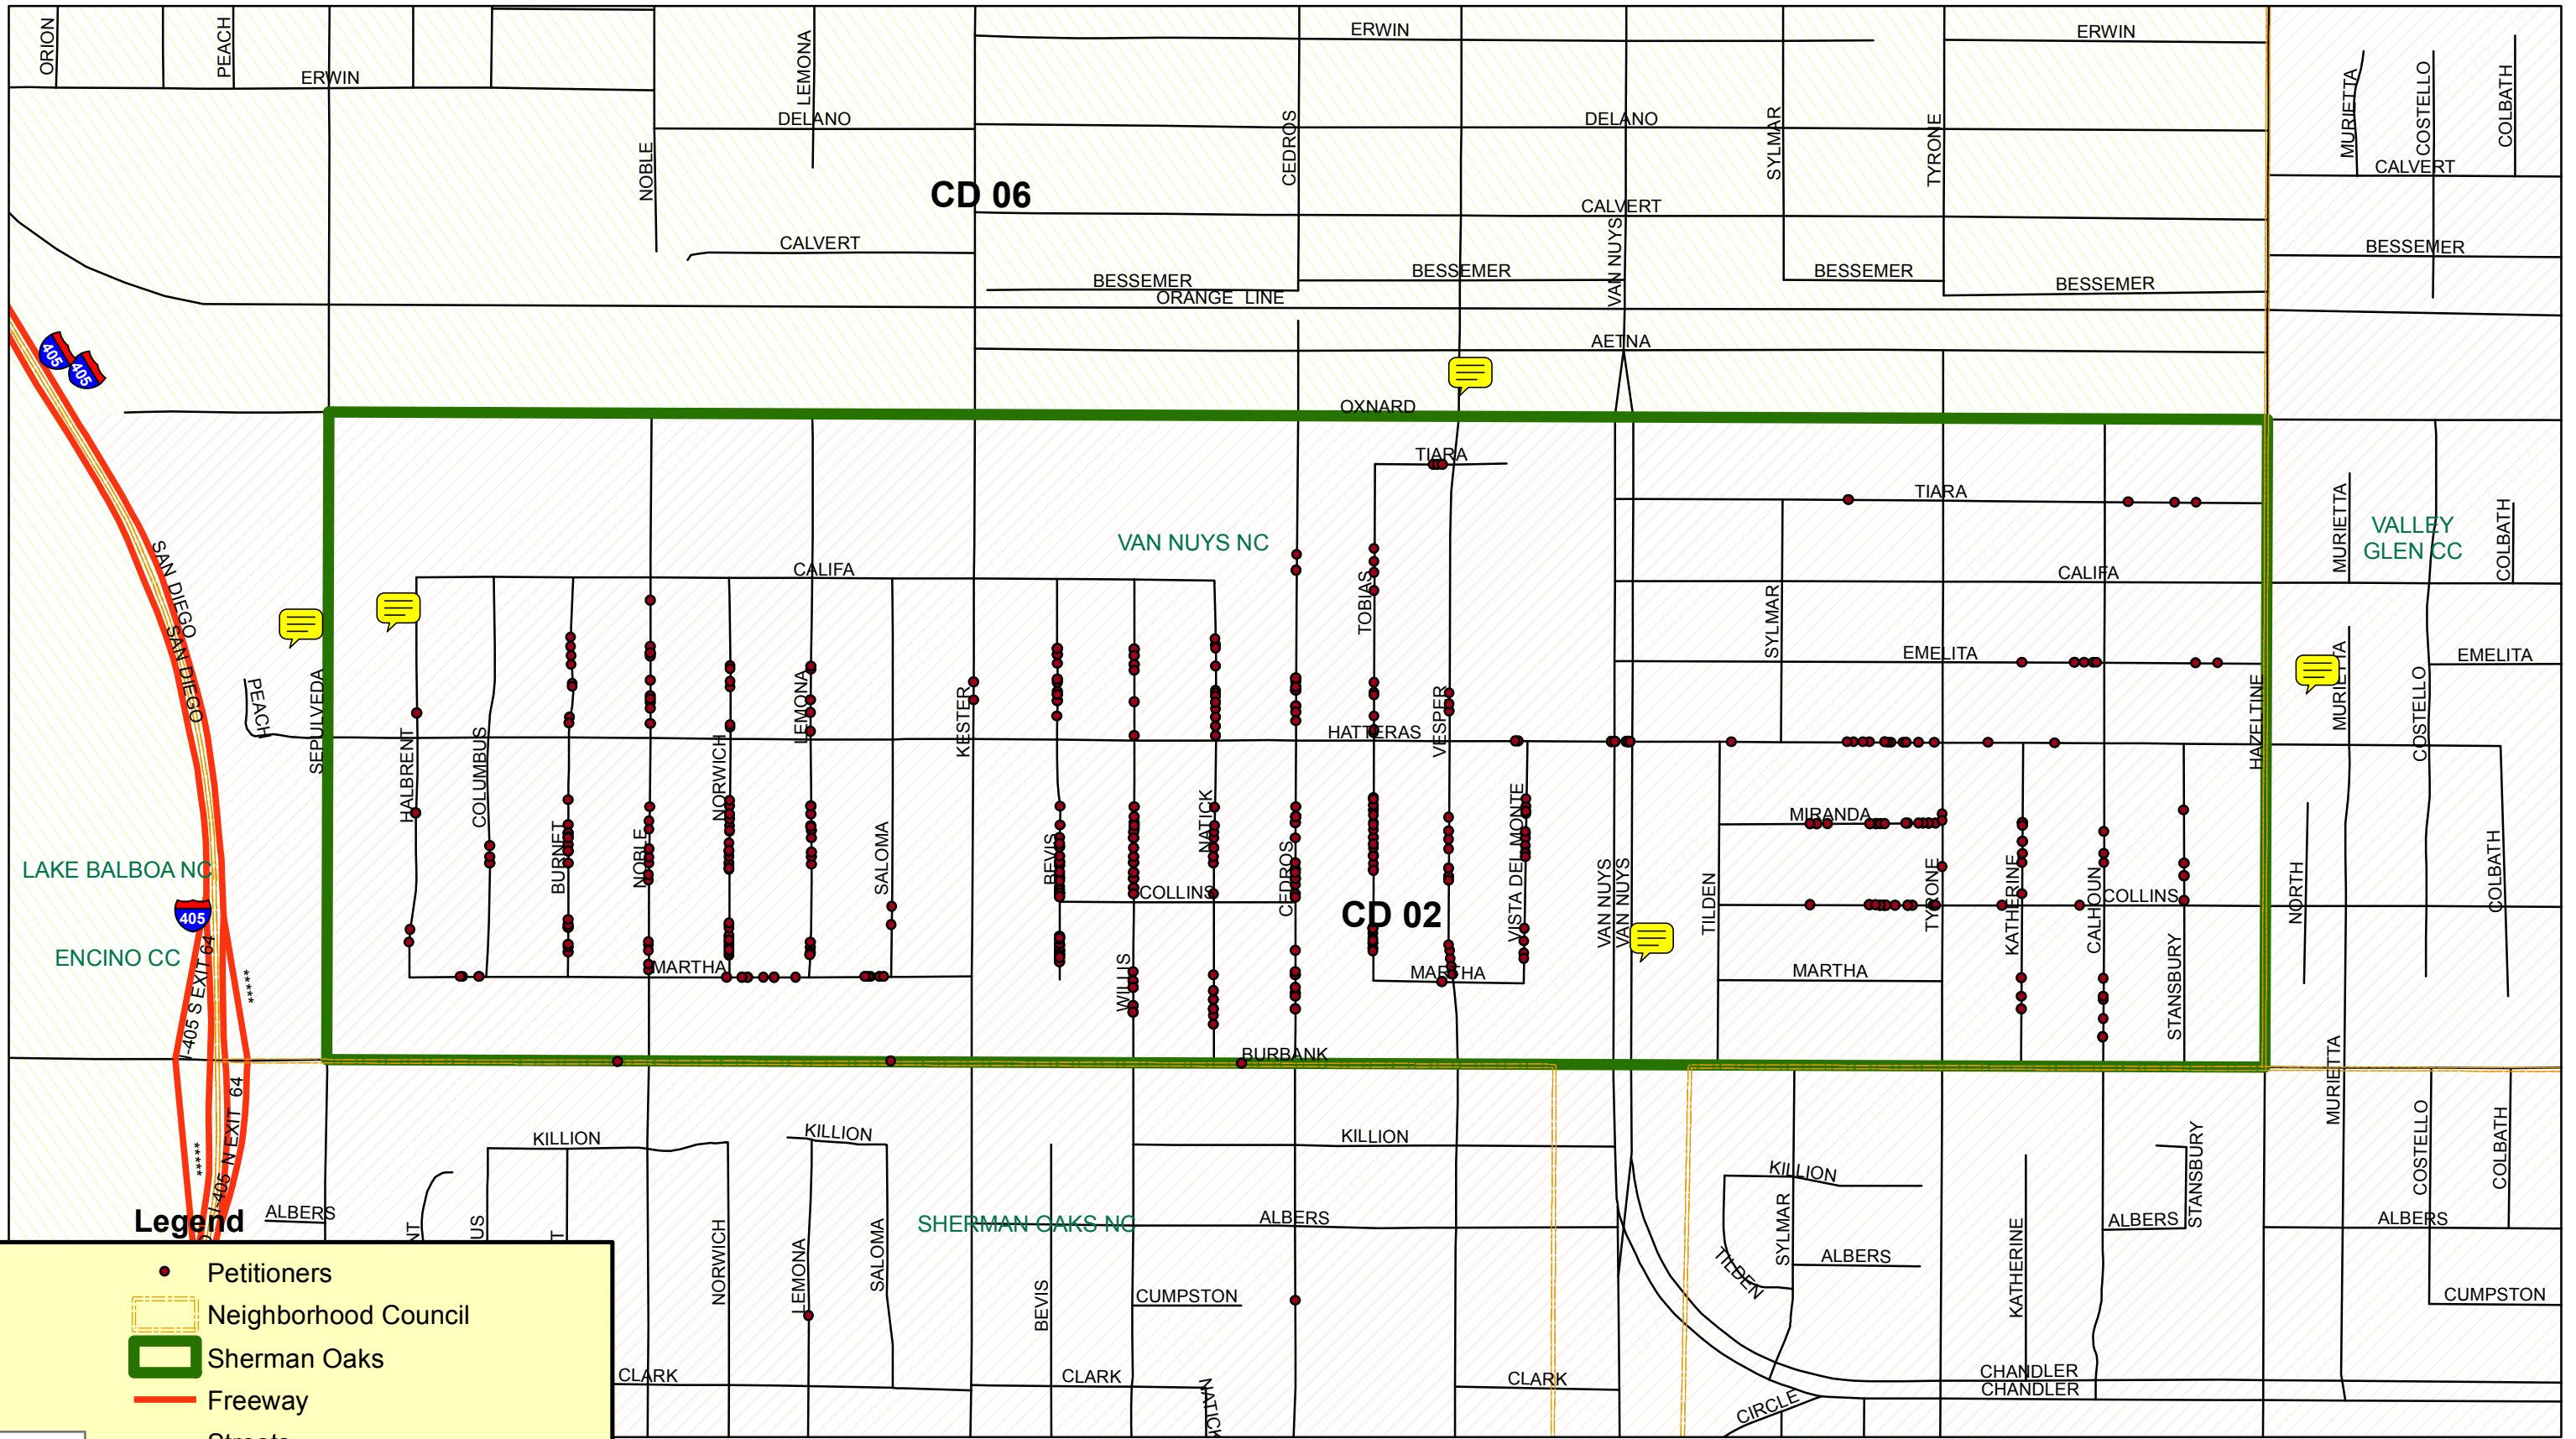

1. Eastern Boundary – North side of Burbank Blvd., West side of Hazeltine, North side of Califa/Tiara.
2. Northern Boundary – North side of Califa/Tiara. This boundary includes the residences on Vesper Street which may have addresses on Oxnard Blvd. Califa Street is located along the Western end of the North Boundary. The street does not have passage through to Sepulveda Blvd. which is the Western boundary. The applicants request that a boundary line is extended from the North West corner of the intersection of Califa and Halbrent to Sepulveda Blvd to the West.
3. Exclusion – East and West side of Van Nuys Blvd. consistent with current exclusion from Magnolia Blvd through Burbank Blvd.
4. Western Boundary – Both East and West sides of Sepulveda Blvd from boundary line extended from Corner of Halbrent and Califa on the North through to the North side of Burbank Blvd. on the South.

I have attached an annotated PDF file of the boundary lines, which contain the amendments as written above. To access the amendments on the map click on the yellow pop-up notes.

With Sincere Regards,

Laurette Healey
