Los Angeles City Council  
Public Works Committee  
C/o Mr. Adam Lid, Legislative assistant

RE: Council File No. 09-2645

The Chatsworth Neighborhood Council is concerned about the proliferation of cell towers in Los Angeles. This is one of the most common complaints CNC hears from our stakeholders.

We join the myriad other groups across the city asking for enactment of a comprehensive new ordinance regulating all wireless telecommunications facilities with protection for residential neighborhoods to the full extent of the law. Until such an ordinance is passed, we believe there should be a moratorium on all wireless facility installations.

Meeting in regular session, duly noticed, CNC voted unanimously on November 4, 2009, to support Councilman Bill Rosendahl's motion (Council File No. 09-2645) from October 27, 2009, calling for reconsideration of the city's regulatory program.

CNC believes a new ordinance should be clear, unambiguous and should include input from the City Attorney to ensure that the city uses the newest tools and provides the maximum enforcement.

Sincerely,

Judith Daniels  
President  
Chatsworth Neighborhood Council
