SUMMARY

In a report to the Board of Transportation Commissioners dated August 13, 2010, the Department of Transportation (DOT) recommends establishing a speed limit of 30 miles per hour on Hatteras Street between Hazeltine Avenue and Sepulveda Boulevard. In order for jurisdictions to legally use radar enforcement, the California Vehicle Code requires that speed limits be established using factual and impartial criteria. These factors include prevailing critical speeds, collision history, and the existence of any conditions not readily apparent to motorists. DOT completed an engineering and traffic survey for Hatteras Street between Hazeltine Avenue and Sepulveda Boulevard and found that a speed limit of 30 miles per hour is consistent with traffic conditions and roadway characteristics and will facilitate the safe and orderly movement of traffic. On August 13, 2010, the Board of Transportation Commissioners approved DOT's recommendation.

At its meeting held June 9, 2010, the Transportation Committee recommended that Council approve the above recommendations to establish a speed limit of 30 miles per hour on Hatteras Street between Hazeltine Avenue and Sepulveda Boulevard, as recommended by the Board of Transportation Commissioners.

Respectfully submitted,

TRANSPORTATION COMMITTEE
