Item Number:

Brief Summary: To help reduce parking congestion, illegal dumping and blight in the community of Wilmington by discouraging the parking and storage of recreational and commercial vehicles on our streets, the Wilmington Neighborhood Council(WNC)is in support of this motion. We've been working with CD 15 and other City departments over the last two years to address this issue. The passage of this motion would address a very important issue to our community.

Additional Information: Commercial vehicles stored on residential streets create congestion, are an imposition to neighboring homeowners, impair emergency and City service vehicle access and aesthetically degrade a neighborhood. It's not our intent to discourage anyone from establishing or operating a business, but tax payers shouldn't have to subsidize them.

Re: LAMC, Sec. 80.69.4. Parking of Oversize Vehicles

Dear Councilwoman Hahn,

To help reduce parking congestion, illegal dumping and blight in the community of Wilmington by discouraging the storage of recreational and commercial vehicles on our streets the Wilmington Neighborhood Council (WNC) passed the following motion on September 24, 2008:

The Wilmington Neighborhood Council requests the Council office to install signage prohibiting the parking of oversize vehicles between the hours of 2AM and 6AM on all residential streets and thoroughfares in the community of Wilmington in accordance with Section 1. Division N, Chapter VIII of the Los Angeles Municipal Code, Sec. 80.69.4., Parking of Oversize Vehicles.

Our board feels that posting prohibitive signage on all residential streets and main thoroughfares is necessary to prevent the problem from simply moving from one street to another.

We thank you for your assistance in this matter and further request that the Council office keep the WNC apprised on the implementation of this ordinance.

Sincerely,

Cecilia Moreno, Chair
Wilmington Neighborhood Council
