To: Clerk.AppFeedback@lacity.org

This e-mail is to inform you that I, and my extended family will be boycotting our travel to your city due to the stand that the council has adopted regarding the state of Arizona. I am not from Arizona, nor California, but I am extremely disgusted with your attitude regarding this matter. Arizona has the right to protect its citizens. They are doing nothing but reaffirming national law. The federal government has failed all those who are legal citizens of this country. And you fail your neighbors as well.

I hope that, due to your deep concern you also welcome anyone who decides to leave Arizona with open arms, that you will provide all the necessary services and housing that they might need. Otherwise you are nothing more than hypocrites. If you have any integrity in this matter, you will work to find ways to help individuals enter the country legally instead of allowing the dangerous, and too often fatal, means by which people enter the country now.

Sincerely,

M. Jones

**CITY of LOS ANGELES BOYCOTT**

To: Clerk.AppFeedback@lacity.org

THE CITY COUNCIL OF THE CITY OF LOS ANGELES ET ALL:

The recent intent of the city council of Los Angeles to invoke a boycott action against the State of Arizona is an imprudent and possibly illegal example of irrational pandering by the compliant imbeciles who supposedly represent the citizens of this city. As a resident of the Los Angeles County I am embarrassed to be associated by proximity to this festering insistence on dragging the reputation and the municipal integrity of a major American city into the cheap, juvenile terrain of ethnic politics. The State of Arizona is a sovereign governmental entity within the overall intent of a Federal Republic. For one elective clutch of one state to infer cessation of financial and interstate commitments to another offends the relationship that is intended for interstate commerce, trade and social equanimity. The city council of the city of los Angeles now goes on record as being a radical, punitive gaggle of cohorts who place political visibility and political favoritism over the actual service to the electorate who put them in place. They subvert the very concept of rational debate and congress. They pander to a segment of the populace in this state who create dissonance bordering on sedition. My support and sympathies go wholeheartedly to the State of Arizona as they strive to confront the tide of crime and illegal migration that threatens their citizens, their social and financial integrity and the subversion of the very essence of guarantees formulated as the founding precepts of the United States Constitution.

My family was going to come to Disneyland and then over to Phoenix to see my cousin's family. However, I understand Los Angeles is boycotting Arizona. Well, we all decided to boycott Disneyland and Los Angeles because of your actions against Arizona, and we are going straight to Arizona for an extended stay.

You see, I downloaded the law and read it. Then I spoke to my cousin and others in Arizona, and they seem to feel the problems with illegal immigrants is getting way out of hand. Add to that the fact that you haven't opened the border between California and Mexico for free flowing traffic, and I find you to be hypocrites.

If you are so gung ho to have illegals in Arizona have a free hand at anything they want, and don't think they should be discovered and sent back, then open your border and fire the border patrol in California.

Kevin Moore
