

MOTION

On March 22, 2011, the Council approved several recommendations relative to the Madang Open Space Project on Normandie Avenue (C.F. 11-0436). The original intent was to vacate the public right-of-way from Normandie Avenue from Irolo Street to approximately 150 feet northerly thereof to create open space and/or a park. A full vacation has since been found to be infeasible and the project has been revised to establish a linear park. This project will be constructed by extending the curb adjacent to the City-owned property currently being leased by the Korean Senior Center to approximately the center line of the roadway. The operation of the two-way street would be changed on Normandie Avenue to a one-way street from Irolo Street to San Marino Street. No additional funding is needed to implement the project.

I THEREFORE MOVE that the Council authorize the Department of Transportation and the Bureau of Engineering to take the necessary actions to implement the revised Madang Open Space Project that includes a linear park at the triangular parcel north of the intersection of Normandie Avenue and Irolo Street, including the construction of the curb and gutter to modify the street configuration as described in the body of the motion.

I FURTHER MOVE that the Bureau of Engineering be authorized to make technical corrections or clarifications to the above instructions in order to effectuate the intent of this Motion.
