OCT 30 2013

PUBLIC WORKS & GANG REDUCTION

MOTION

On June 6, 2013, City Council adopted CF 12-0126 which moved to close Industrial Street, east of Central Avenue, to local street traffic as part of a public safety project to alleviate crime in this area. The street closure would be implemented by installing a fence in the public right of way.

The proposed fence will be installed and maintained by adjacent Skid Row Housing Trust at no cost to the City. Additionally, the closure will abate local criminal activity, increase public safety and enhance the community and work environment.

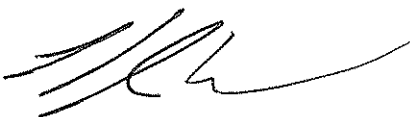

The Skid Row Housing Trust is prepared to move forward with installation of the gate and needs more time than currently allowed under the previous conditions set forth in the City Engineers Report.

I THEREFORE MOVE that Condition 4 of the City Engineers Report be amended to read as follows: "That the closed area be physically closed within 12 months of Council approval of the temporary closure or the approval be rescinded" in order to allow implementation of the project.
