Dear Sharon please give to the city council hearing concerning hillside density decisions for hollywood hillsides

Dear council members;

My husband and I reside at 9141 Thrasher. It has been a nightmare for us and our neighborhood. Gorgeous homes above us on the hillside area of Oriole have been torn down. In their place they are building 30,000 sq foot homes. Our beautiful neighborhood has been ruined by these mega mansions being built by developers. They tore down a 40 year old home owned by the late Ricardo Monteblan. His architect was one of the most famous in Mexico. It was a landmark home with great space around it. This developer has torn it down and built this monstrosity. Across the road on the hill Across from us they have put 20-30 caissons to hold a swimming pool, now they are building a three story 16,000 sq ft home.

You must not change the wording for the 8875 Thrasher lot. It is a Miami developer who is demanding he build two homes on the hillside slope. This shouldn't be allowed. Our streets are ruined from all the heavy machinery. Its dangerous and defensive driving with cars parked illegally on our narrow streets. In a national emergency like an earthquake fire trucks could never reach us. We need help and we need these developers to stop.

Arlene and David Ray
