## **JUSTIFICATION FOR CEQA EXEMPTION**

The Department of City Planning has determined, based on the whole of the administrative record, that the proposed Ordinance is exempt from CEQA pursuant to CEQA Guidelines, Section 15061(b)(3) and Section 15378(b)(5), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines, Section 15300.2 applies.

The proposed Ordinance consists of administrative procedures for the processing of coastal development permit requests and appeals and has no effect on the physical environment. Pursuant to Section 15061(b)(3), the proposed Ordinance is not a project under CEQA, because “the activity is covered by the common sense exception that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA.”

The proposed Ordinance is also not a project under CEQA pursuant to Section 15378(b)(5) because “organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment” are not considered a project. The proposed Ordinance does not change any discretionary actions into non-discretionary actions. Therefore, the proposed Ordinance will continue to ensure that projects meet all procedural requirements of CEQA, and that impacts are analyzed and environmental mitigations are imposed where necessary and appropriate. Furthermore, the proposed Ordinance does not change the zoning of any properties and is limited to administrative provisions for processing coastal development permit requests and appeals. Therefore, the proposed Ordinance does not have the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment and is not considered a project under CEQA.
