**DISCUSSION**

The donation would enable the Department to procure enough MDCs to complete the goal of replacing all of the Department's MDCs in patrol vehicles. The MDCs are a critical component in providing field officers with vital, instant information crucial to officer and public safety. The MDCs currently used are essentially laptop computers unique to each vehicle. As with all technology-based equipment, the MDCs have a limited life-span, typically five years. The average age of MDCs in use is over six years. The MDCs are now considered obsolete due to their age which is apparent by their limited capability to accept newer software applications. Updated MDCs will result in lower maintenance costs and ensure that the Department has an adequate number of police vehicles equipped with operable MDCs for deployment. The MDCs come with a three year warranty. After the three year warranty, the MDCs will be covered by budgeted funds.

No expressed or implied commitments or promises were made to the donor or representatives of the donor. The donor will not receive any preferential treatment, endorsement, or recommendation; and the donor is not allowed the use of any Los Angeles Police Department patents.

Administrative Services Bureau has reviewed the donation and determined that it has been submitted in accordance with Section 5.467 et seq. of the Los Angeles Administrative Code, which provides for the receipt and acceptance of donations to the Los Angeles Police Department.
