

MOTION

As the City continues to recover from the economic recession of 2008, and begins to consider making new investments in core city services, one of the most significant priorities must be restoration of the Fire Department and reducing response times for fire and medical emergencies.

During the Council's budget deliberations in 2012, the Council instructed the Los Angeles Fire Department (LAFD) to create a five-year plan for service restoration, but no such plan has yet been submitted to Council.

WE THEREFORE MOVE, that the Council INSTRUCT the CLA to meet with various stakeholders, and to review the recent findings of the grand jury regarding the LAFD, the impending recommendations of the consultants charged with reviewing LAFD's operations, and any other relevant source documents, and to report to ~~Council~~ *the Public Safety + Budget and Finance Committees* with responses to the findings of the grand jury and the consultants.

WE FURTHER MOVE that the CLA should develop recommendations for the Council on how to increase LAFD's efficiency, reduce its response times, and make sensible investments in the department's future.

WE FURTHER MOVE that the Fire Department be instructed to submit to the Council a five-year plan for restoration of fire and medical services for consideration during the upcoming Council deliberations regarding the budget for Fiscal Year 2014-2015.
