TRANSPORTATION

MOTION

A corporate or government "bicycle fleet" or "bike pool" describes an inventory of bicycles that employees can use to quickly traverse a large factory building, movie studio lots or campus of buildings. These programs are designed to allow employees to check-out bicycles for a specific time period and/or the bikes can be distributed around the corporate campus to be available for employees to come and go on first-come, first-serve basis. In order to encourage more employees to bicycle to/from meetings, the City of Los Angeles should examine the feasibility of developing a City Bicycle Fleet for employees working at City Hall, City Hall East, City Hall South, C. Erwin Piper Technical Center (Piper Tech), Figueroa Plaza, Public Works Building, and the Central City Yards.

I THEREFORE MOVE that the Council instruct the Department of Transportation to report on the feasibility, cost and potential funding sources to develop a City of Los Angeles Bicycle Fleet for employees working at City Hall, City Hall East, City Hall South, C. Erwin Piper Technical Center (Piper Tech), Figueroa Plaza, Public Works Building, and the Central City Yards.
