Summary: We support the council resolution introduced by Councilmembers Bonin and Koretz to have the Department of City Planning, with the assistance of other relevant departments, review and develop regulatory controls over the geological drilling process known as "fracking" and prepare and present an ordinance to change the city's zoning code to prohibit dangerous processes attributed with well stimulation. We concur with the California Council on Science and Technology's report (June 2015) that the fracking process, as currently permitted, presents environmental dangers to the stakeholders of Los Feliz and the City of Los Angeles as a whole.
