MOTION

Residents near the intersection of Abbot Kinney Boulevard and Boccaccio Avenue/Marr Street have complained for years that a crosswalk is necessary so that people can safely cross Abbot Kinney Boulevard. There are no intersections nearby and pedestrians must either walk a great distance out of their way or jaywalk to cross the street.

The Department of Transportation is piloting the installation of Rectangular Rapid Flash Beacons (RRFB) to enhance pedestrian safety at intersections throughout the City. RRFBs are flashing lights that supplement warning signs at unsignalized intersections or mid-block crosswalks. These new devices have shown a high rate of motorist compliance when coupled with the installation of a crosswalk.

I THEREFORE MOVE that the Council instruct the Department of Transportation to install Rectangular Rapid Flash Beacons (RRFB) and a crosswalk at Abbot Kinney Boulevard and Boccaccio Avenue/Marr Street.
