BUDGET & FINANCE

MOTION

The Eighth Council District (CD 8) has received a request to donate ten surplus computers to Watts Learning Center, an independent K-5 public charter elementary and 6-8th grade middle school. The school's mission is to provide a world-class education so that students may achieve an optimum learning experience. The donated computers will be used to further the student's educational enrichment.

Section 22.547 of the Los Angeles Administrative Code provides that upon Council approval, surplus City equipment may be sold for less than market value to an individual, organization or governmental entity if the cost to discard, recycle or transport the surplus equipment would otherwise impose a documented net financial cost to the City. As this surplus equipment is e-waste and produces a net financial cost to the City, Watts Learning Center is eligible for this below market value sale of surplus equipment.

I THEREFORE MOVE that the City Council:

1. Find that Watts Learning Center is eligible to purchase ten (10) computers at below market value (\$1.00 each), in accordance with LAAC Sec. 22.547 (Donation of Surplus City Equipment), as discarding/recycling/transporting the surplus equipment produces a net financial cost to the City which can be documented;
2. Request the City Attorney to expedite preparation of the appropriate documents to effectuate the sale and transfer of the above identified surplus equipment at below market value to Watts Learning Center; and
3. Instruct the City Clerk to inform Watts Learning Center [Kelly Baptiste, (323) 754-9900, 310 West 95th Street, Los Angeles, CA 90003] that the surplus equipment must be claimed within 60 days from the date of Council approval of the request after which time it will revert to the City's surplus equipment pool for disposal by the Department of General Services.
