

14-0251

MOTION

The Fifteenth Council District (CD 15) has received a request to donate twenty parking meters to the City of Lompoc. The Department of Transportation can provide obsolete parking meters that have been decommissioned and will no longer be used.

Section 22.547 of the Los Angeles Administrative Code provides that upon Council approval, surplus City equipment may be sold for less than market value to an individual, organization or governmental entity if the cost to discard, recycle or transport the surplus equipment would otherwise impose a documented net financial cost to the City. As the obsolete parking meters must be stored and/or transported for disposal, thereby producing a net financial cost to the City, the City of Lompoc is eligible for this below market value sale of surplus equipment.

I THEREFORE MOVE that the City Council:

1. Find that the City of Lompoc is eligible to purchase twenty (20) obsolete parking meters at below market value (\$1.00 each), in accordance with LAAC Sec. 22.547 (Donation of Surplus City Equipment), as discarding/recycling/transporting the surplus equipment produces a net financial cost to the City which can be documented;
2. Request the City Attorney to expedite preparation of the appropriate documents to effectuate the sale and transfer of the above identified surplus equipment at below market value to the City of Lompoc; and
3. Instruct the City Clerk to inform the City of Lompoc that the surplus equipment must be claimed within 60 days from the date of Council approval of the request after which time it will revert to the City's surplus equipment pool for disposal by the Department of Transportation.
