**Comments for Public Posting:** Please pass the tenant anti harassment ordnance as soon as possible. My landlord is abusing me and I am in hell. Every night when yall go to sleep, I lie awake wonder how this is happening. Please don't fall for the fancy lawyer talk trying to act like this ordnance would hurt tenants. It's a lie and we are just trying to do are best in a civil society. Some older landlords are not all of sound mind as my land lady says she is not a woman if she doesn't evict me and I am clean and quiet paying rent for 5 years. This covid thing has made her very angry and violent. Just need to know when it becomes law. Thank you
