Item Number: 14-0268-S16

Summary: Greater Cypress Park Neighborhood Council Community Impact Statement Council File 14-0268-S16 GCPNC is in support of Councilmember Ryu and Bonin's Motion linked here: http://clkrep.lacity.org/onlinedocs/2014/14-0268-S16_mot_06-19-19.pdf Based on the results of the LAHSA 2019 Greater Homeless Count showing a 16% increase in homeless individuals living on Los Angeles streets and sidewalks, in cars and vans, parks and temporary shelters with increases in homelessness shown through Los Angeles County, this Motion proposes: 1. to study the feasibility of tying tenant relocation assistance required for evictions under the Ellis Act to the median rental price for a comparable unit within the respective community plan area, to consider family size, unit size and number of tenants, and consider the annual adjusted consumer price index (CPI) according to local area indexes; 2. to increase the percentage of affordable housing Ellis replacement units (now set at 20%); 3. to give tenants undergoing evictions due to demolition of a rent-stabilized building the Right of First Refusal in the new buildings and the option to rent the unit at the previous below-market rate; 4. to study and report back the City's authority to restrict affordable development incentives such as density bonus or Transit Oriented Communities (TOC) incentives at locations where tenants were evicted under the Ellis Act, to ensure vulnerable housing sectors are not rewarding developers for creating unintended displacement. 5. to study and report back on the feasibility for acquisition and financing the rehabilitation of RSO properties that are at risk for Ellis Act evictions and demolitions, and further to determine feasibility and options for conversion to permanent affordable housing. GCPNC supports this research and report and request extension beyond RSO properties.
