October 17, 2014

Honorable Members of City Council
of the City of Los Angeles

Honorable Members:

This is the Investment Report for the month ending August 31, 2014. It is provided to ensure the City Council is informed of the Department's activities. It satisfies the recommended reporting requirements of the City of Los Angeles Administrative Code, Chapter 5.1, Article 1, Section 20.90, which addresses the City Council's request for monthly financial information.

INVESTMENT ENVIRONMENT¹

The U.S. economy (as measured by the Gross Domestic Product-GDP) increased at an annual rate of 4.2% for the second quarter of 2014, which is 0.2% higher from what was estimated the previous month. The current anticipated growth rate for all of 2014 is 2.0%, which is 0.3% higher than last month's 2014 full-year forecast. The U.S. unemployment rate for August 2014 was 6.1%, which is 0.1% lower than last month's rate. The Consumer Price Index (CPI) increased 1.7% for the twelve months ending August 2014. Prices are higher, in part, due to higher education and wage costs. U.S. consumer spending, as measured by Retail Sales, increased 5.0% over the past twelve months.

¹ Source: Bloomberg Finance L.P.

The Federal Reserve held the Fed Funds rate within the range of 0.0% and 0.25% at its July 30, 2014 meeting. The Federal Reserve stated, “Labor market conditions improved, with the unemployment rate declining further. However, a range of labor market indicators suggests that there remains significant underutilization of labor resources. Household spending appears to be rising moderately and business fixed investment is advancing, while the recovery in the housing sector remains slow.”

CURRENT AND FORWARD INTEREST RATES

The current U.S. Treasury yield curve is a normal, upwardly sloping curve—giving longer term investors more yield as they realize more interest rate risk than shorter term investors. Forward yield curves, which are based upon the current rates, indicate rising short-term and long-term rates in the future.

COMPLIANCE

Investment transactions were executed in accordance with the California State Government Code and the City’s Investment Policy. The City Treasurer believes the General Pool contains sufficient cash flow liquidity to meet the next six months of expected expenditures.

REVIEW AND MONITORING

FTN Financial Main Street Advisors, the City’s investment advisor, currently monitors the Department’s investment activities.

PORTFOLIO CHARACTERISTICS

The Office of Finance invests primarily in a variety of fixed income securities in accordance with current policy and guidelines. The following table summarizes the key characteristics of the City’s investment portfolios as of August 31, 2014.

Portfolio Funds	Amount of Funds at Market Value	Effective Yield	Average Weighted Maturity	Average Credit Rating
Core Portfolio	\$1,287,411,751	0.51%	42 Days	AA+
Reserve Portfolio	\$6,251,019,095	1.20%	2.8 Years	AA+
Total Investment Pool	\$7,538,430,846	1.08%	2.3 Years	AA+

NOTE: Effective yield is a *snapshot* of how much an investment would yield *assuming that when interest is received it is immediately reinvested*. It does not include capital gains or losses in its computation. The effective yield of the Core Portfolio excludes that of cash (bank balances). The Average Credit Rating is a weighted average rating using both Standard & Poor’s and Moody’s, and is expressed in terms of a Standard & Poor’s rating.

INVESTMENT PERFORMANCE²

	Core Portfolio	Reserve Portfolio	Combined Portfolio
Market Value	\$1,287,411,751	\$6,251,019,095	\$7,538,430,846
Total Rate of Return	0.01%	0.35%	n/a
Benchmark Total Rate of Return	0.00%	0.35%	n/a
Variance	0.01%	0.00%	n/a

The City measures investment performance on a total return basis to an established industry recognized benchmark*. The above table summarizes the August 31, 2014 portfolio total rate of return for the City’s General Pool. Additional investment information may be found on page 6 through 29 of this report.

The objective of the Core Portfolio is to preserve capital, maintain liquidity and earn income. The 3-month T bill index is the most appropriate available index to use. The Core Portfolio does not mirror the investments in the index due to limited (Thursday) maturities, and the large daily cash flows of the City, which require the placement, and subsequent maturity of securities daily.

*The benchmark index for the Reserve Portfolio was changed August 1, 2013. This index, which was created in 2013 by Bank of America Merrill Lynch, more closely matches the California State Code and the City’s Investment policy in specific regard to corporate medium term notes as compared to the previously used index.

² Performance is measured as mandated by the Global Investment Performance Standards, which is published by the CFA Institute and is widely accepted as the source of industry standard performance metrics. Section 2.A.1 states that total return, including realized and unrealized gains and losses must be used.

If you have any questions about the information contained in this report, please contact me at (213) 978-1774 or Tom Juarez, Chief Investment Officer, at (213) 978-4039.

Respectfully,

Antoinette Christovale, CPA
City Treasurer
