

MOTION

I HEREBY MOVE that Council ADOPT the following recommendations relative to amending the Los Angeles Municipal Code regarding commercial cannabis activity, the Rules and Regulations for Cannabis Procedures, and other related matters:

1. INSTRUCT the Department of Cannabis Regulation to report back with a process for Social Equity applicant approval under the Phase III application window, regardless if applying in an area of undue concentration, so long as the City Council has deemed to have found that approval of the application would serve a Public Convenience or Necessity.
2. REQUEST the City Attorney to return with a new draft ordinance that will provide approval of qualified Social Equity applicants to apply under the Phase III application window, regardless if applying in an area of undue concentration, so long as the City Council has deemed to have found that approval of the application would serve a Public Convenience or Necessity.
