Please allow Medical Cannabis Delivery in the City of LA

*Honorable City Council Members,*

*Medical marijuana delivery can provide a safe and discreet alternative to visiting dispensaries. There are thousands of patients in the LA area who require medical marijuana delivery for access to their doctor recommended medication. These medications help reduce pain, seizures, side effects of chemotherapy, and provide other palliative care.*

*This is especially important for the many patients who can't visit a dispensary. LA's ban on medical marijuana delivery is deeply affecting the health and quality of life for these patients, and I would like to request that you consider reversing your decision.*

*Please allow Los Angeles residents to have legal delivery. We are the last of California's major cities to keep this essential service illegal. Legal delivery would make a big difference to patients like me.*

*Thank you for your consideration.*

Cheers,  
Sarah

I have been using medical marijuana for about 2 yrs. It's done wonders for my back, leg, and arm pains. It's also really fun, which is great, cause Prop 64 just passed. I'd love to be able to get marijuana delivered to me cause, like an adult, I could also get alcohol delivered. Please allow delivery in my city.

Thank you,

Doug Culp

Dear Honorable City Council Members,

I'm writing to you all today to espouse my support of allowing delivery of Medical Marijuana. I believe it should be unequivocally legal. I personally value it for convenience, as do many whose medical prescriptions are for strains not easily found nearby.

Given that marijuana is not toxic to the body, and has so many benefits to so many people, I can't think of a compelling reason to ban delivery of it, and I can think of many compelling reasons to allow its delivery.

Thank you for your consideration,

- Erik Neff  
Chief Technology Officer, Primitive Spark
