RULE 16

JUN 6 2014

~~PUBLIC WORKS & CIVIL ENGINEERING~~

Schedule for Wednesday, June 11/14

MOTION

#51

Since 1987, the Bureau of Street Services (BSS) has been recycling Reclaimed Asphalt Pavement (RAP) removed from the streets during the milling phase of resurfacing into new asphalt concrete for use in paving.

In April 2009, the Board of Public Works awarded five year contracts for the production of Recycled Asphalt to Vulcan Materials (C-115343) and All American Asphalt (C-115342). These contracts have provisions that allow for month-to-month continuation upon contract expiration. These contracts expire on June 10, 2014. However, the City Controller has determined that these contracts cannot be extended beyond 5 years without Council approval.

In that these contracts will expire on June 10, 2014, BSS is seeking authorization to extend these contracts on a month-to-month basis to allow BSS to conduct the rebidding process and to avoid a lapse in the use of recycled asphalt materials.

I THEREFORE MOVE that the Department of Public Works, Bureau of Street Services (BSS), be authorized to extend existing contracts for the production of Recycled Asphalt with Vulcan Materials (C-115343) and All American Asphalt (C-115342) on a month-to-month basis, and that BSS be also instructed to expedite the rebidding for Recycled Asphalt to prevent any lapse in the use of such asphalt products.
