

ORDINANCE NO. _____

An ordinance amending Subsection (e) of Section 80.07 of the Los Angeles Municipal Code to allow the Department of Transportation to delegate its authority to another City agency to install or remove temporary no parking signs.

The City finds and declares the following:

WHEREAS, the City of Los Angeles has the largest municipal street system in the nation with over 6,500 centerline miles of improved residential and arterial streets;

WHEREAS, it is estimated that over 35% of the roadway system, approximately 2,400 centerline miles (8,200 lane miles), are currently failing or in near failing condition;

WHEREAS, the City has undertaken an ambitious program to repave these failing streets in an expedient manner;

WHEREAS, the Department of Transportation has the exclusive authority to install, place, maintain or remove any traffic control device or other type of sign in the City;

WHEREAS, the Department of Transportation does not currently have the staff needed to expeditiously install, place, maintain or remove traffic control devices on the numerous streets that are currently being repaved, as well as those streets scheduled to be repaved in the near future, without undermining its other core functions; and

WHEREAS, it is necessary for public safety to allow the Department of Transportation to grant permission when requested by other departments, officers or boards of the City, or private agencies or persons, to install, place, maintain or remove traffic control devices or other signs, as long as the installation, placement, maintenance, or removal is in compliance with City and state rules, regulations or policies regarding the safe installation, placement, maintenance or removal of traffic control devices or other signs.

NOW, THEREFORE,

DO ORDAIN AS FOLLOWS:**
