

14-1489

MOTION

The alley located south of the property located at 5770 W. Hollywood Blvd. was gated in order to address nuisance activities. The alley has been gated since 2002 and public safety in the area has greatly improved. The alley dead ends at the Hollywood freeway and is strangely configured with a sidewalk on the freeway embankment.

The property located at 5770 W. Hollywood Blvd. has ~~a~~ located a storage container in the sidewalk portion of the alley and Council District 13 would like to assist. The storage container does not block access and does not present any mobility challenges.

I THEREFORE MOVE that the Bureau of Engineering be directed to issue a revocable permit, subject to the applicant satisfying the condition for issuing such a permit, to allow the storage container to remain in the public right-of-way. The revocable permit will allow for the encroachment and the continued use of the sidewalk portion of the alley for the storage container.
