

MOTION

The Bureau of Engineering (BOE) is the citywide Program Administrator for the Transportation Foundation of Los Angeles (TFLA) Lasting Internship for Tomorrow's Los Angeles (LIFT LA) program (C.F. 15-0495-S1) and is responsible for coordinating the placement of student interns within BOE and other participating City departments. In addition, BOE has a separate internship program for student engineers and student architects to intern with full-time City staff working on City capital and engineering/architectural projects.

Additional funding for the continuation of these internship programs is needed by BOE to maintain the current part-time interns as well as begin the process of offering up to 60 new summer internship opportunities to local college students in late February and March. BOE wishes to remain competitive with the majority of local agencies providing engineering and architectural internship opportunities, both private and public, by making internship offers before or at the same time as these other agencies. Accordingly, BOE will be able to make their engineering and architectural internship offers to their best candidates once the additional funding for the new Summer Interns has been approved.

As there is a critical and on-going need for part-time job opportunities for our youth, including internship opportunities for local college students majoring in a science, technology, engineering, and/or math (STEM) field, BOE needs to transfer \$300,000 within their current budgeted funds, to provide the necessary funding for up to 60 student internships through their LIFT LA and Summer Internship programs.

I THEREFORE MOVE that \$300,000 within the Bureau of Engineering Fund No. 100-78 (761/50S178) be transferred / appropriated from Account No. 001010 (Salaries General) to Account No. 001070 (As Needed Salaries) for up to 60 summer internship opportunities.

I FURTHER MOVE that the Bureau of Engineering be authorized to make any technical corrections or clarifications to the above fund transfer instructions in order to effectuate the intent of this Motion, including any corrections and changes to fund or account numbers.

I FURTHER MOVE that the Bureau of Engineering be instructed to also conduct outreach to Historically Black Colleges and Universities regarding these summer internship opportunities.

PRESENTED BY:

BOB BLUMENFIELD
Councilmember, 3rd District

MARQUEECE HARRIS-DAWSON
Councilmember, 8th District
