APPROVED PROJECT DESCRIPTION:		
<p>Project Description: The Mobility Plan 2035 (MP 2035) is a comprehensive revision of the adopted 1999 City of Los Angeles Transportation Element of the General Plan that will guide mobility decisions in the City through year 2035, coupled with supporting documents and discretionary actions to further align the City's street standards, processes and procedures with the goals of the MP 2035. Proposed components of MP 2035 include: (1) <u>Policies</u> - that support identified goals and objectives; (2) <i>Citywide General Plan Circulation System Maps</i> (Highways and Freeways map) including information about <i>Scenic Highways</i>; and (3) <u>Action Plan</u> - that identifies programs that support implementation of the Plan's goals and policies and aids the City in achieving its objectives (implementation of all or a portion of the Action Plan is incumbent upon staffing capacity and future funding). The Action Plan includes the Network Concept Maps that identify potential roadways for pedestrian, bicycle, transit, or vehicle enhancements as well as depicts existing freight movement facilities. MP 2035 is further supported by a Complete Streets Design Guide, an update to the Complete Street Standards (Standard Plan S-470-1) and a Five-Year Implementation Strategy.</p> <p>The project does not authorize specific right-of-way improvements. Physical changes to the enhanced network system cannot occur without additional community engagement, design development and environmental review.</p>
