

#6

Regulated by: Type of Vehicle Driver Requirements for Background Checks*

Table with 3 columns: Regulated by, Type of Vehicle, and Driver Requirements for Background Checks*. Rows include Los Angeles Department of Transportation (Taxis, Non-Emergency Ambulances), Los Angeles Police Commission (Valet drivers), and California Public Utilities Commission (CPUC) (TNCs, Other Transportation Charter Party Carriers).

*There is a difference in a "background check" and a "criminal background check." A background check is typically a search of publicly-available records based on a person's name, a process that may be done when applying for housing, employment, and, historically, for immigration purposes.
