Item Number:

Summary: The ERNC calls on the City Council to revisit the recommendations of the RAND Enterprise Analysis published in 2001 titled "Governance in a Changing Market: The Los Angeles Department of Water and Power" and create a committee to develop a Governance Structure that adequately meets the needs of its ratepaying residents. This committee should be composed of both subject matter experts, stakeholding Neighborhood Council members, responsible employees of the utility and its unions, and the city controller's office. The Council should propose options as starting point for discussions that need to be both transparent and extensive so that they can address the many constraints facing our communities before an initiative is drafted.
