RE; Gate installation on Dillon St. at London St.

Dear Mr. Yew,

I am writing today with concerns for public safety in the Silver Lake area of my district, in particular the Dillon Street cul de sac at London Street.

I received a request from the property manager of 3100 London St., a newly restored 27 unit apartment complex, to install a gate across the street to insure the safety of the residents entering and exiting the complex. The only other property that would be affected is a church at 3200 London St., whose property owner is also in support of the gate installation.

LAPD Rampart Division has expressed support for the gate and will be submitting a letter from Captain Pratt with crime statistics for the area. LAFD has also submitted a letter stating that if the gate is installed according to required code and regulations that emergency vehicle access would not be impeded.

In addition, I received a letter with over twenty signatures from the immediate residents of London St. in support of the gate installation.

If you have any questions, please do not hesitate to call me. Thank you for your consideration.

Sincerely,

MITCH O'FARRELL
Councilmember, 13th District
