Summary: The South Central Neighborhood Council opposes PIMA Alameda Partners LLC proposed project, their Environment Impact Report (EIR) fails to fully address how this project will impact CD9 residents. Our community suffers from poor air quality and their development will only increase diesel traffic, negatively impacting local schools, churches, and residents. We support the restoration of the South Central Farm as an alternative plan to help bring organic food, clean air, green jobs, and park equity to all CD 9 residents. The South Central Farm Restoration Committee is proposing an alternative development that would better fit the needs of our stakeholder.
