Dear Planning and Land Use Committee,

Thank you for your consideration up to date of alternative housing solutions such as the inclusion of Movable Tiny Houses within the ADU ordinance. I urge you to approve language for ADUs, including movable tiny houses.

I believe that Movable Tiny Houses are a beneficial housing option for my neighborhood because it is more affordable and crests diverse in housing types and people.

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you,
Sean Gustafson

I believe that Movable Tiny Houses are a beneficial housing option for my neighborhood because the cost of housing has become UNAFFORDABLE. We shouldn't have minimum square footage laws and other restrictions when we are in the middle of a housing crisis and all-time high homeless situation!

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you.

Sincerely,

I believe that Movable Tiny Houses are a beneficial housing option for my neighborhood because it offers a viable alternative to mainstream housing. Cheaper housing can, thus, leave room in an individual's economy to spend locally.

We have been waiting for over two years for this ordinance to pass - please do not delay any longer - approve this ordinance so that we may have some clarity as to pathways for legal tiny housing.

Thank you.
