<b>PROJECT TITLE:</b> (Including its common name, if any): Facility Certification Program, a subsequent activity in the City-wide Exclusive Franchise System (recycLA) Program	C.F.:
--	-------

**PROJECT DESCRIPTION AND LOCATION:** The Facility Certification Program (FCP) establishes requirements for facilities in the recycLA Program to protect worker safety, public health, and the environment. Requirements implemented to address community concerns include frequent and detailed facility inspections by Sanitation Staff; litter control and cleaning to prevent the off-site migration of waste materials; nuisance prevention through the implementation of noise, odor and dust control measures including enclosure of certain facilities; and ensuring that facility employees receive adequate training, personal protective equipment, and safe working conditions. The FCP must be adhered to irrespective of the jurisdiction in which facilities are located. FCP is within the scope of the program adopted by City Ordinance No. 182986, dated April 8, 2014, establishing an exclusive waste hauling and recycling franchise system for commercial and multi-family properties within the City (recycLA) and its certified Program EIR, which adequately describes the FCP for CEQA purposes.
