Request to withdraw application for vacation

re:
VAC E1401321
Council file 17-0961

To Whom it may concern:

I submitted an application for vacation of a small area of land attached to my property that is unused and unkempt by the city.

I had not heard anything from the city in almost 8 months so I called the office and finally received a copy of a notice that the 'proposed area is currently under review for the los angeles river greenway project'. If we don't hear anything back in 30 days our office would recommend denial to this vacation application.

This letter was never mailed to me, and sent to the wrong email address do to human error (not the address I listed on the application).

At this point I'd simply like to withdraw my application and be refunded to accompanying funds since nothing was able to be done.

Please send check to the address above
