

MOTION

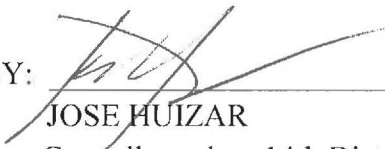

In 1913, Ordinance No. 28868 created Midway Place, an alley running between 9th and 11th Street. The alley does not run continuously through to Pico Boulevard. Instead, the alley skips the block between 11th and 12th street and resumes between 12th Street and West Pico Boulevard.

In 2014, a segment of Midway Place was vacated beginning at Pico Boulevard and continuing to a depth of 188.7 feet to the northerly property line of the WREN Apartments. The remaining portion of the alley, extending to 12th Street, has not been vacated and remains a public alley. To distinguish these segments from the remainder of Midway Place, it is appropriate to establish both the private and public portions of the alley as Midway Lane.

I THEREFORE MOVE that the City Engineer be directed to take the following actions:

- a. Begin the process of establishing the name of the private driveway lying on Pico Boulevard, between Olive and Hill Street, and continuing to a depth of 188.7 feet northerly toward 12th Street as "Midway Lane;" and
- b. Begin the process of changing the name of "Midway Place," running between 12th Street and its southerly terminus, to "Midway Lane."
